TROOPS QUELL DISORDERS IN STRIKE AREAS

MORE MINERS JOIN PENNSYLVANIA WALKOUT

BY MARBEN GRAHAM
(Associated Press Staff Writer)

Brownsville, Pa., July 31 (AP)—Mine strikes and threats of new walkouts spread swiftly through western Pennsylvania today as Governor Gifford Pinchot moved for "permanent peace" and the militia put down four sporadic outbursts of disorder.

With 20,000 miners on strike, demanding union recognition, and a walkout of 6,000 more in prospect, national guardsmen acted quickly and sternly to quell the first disturbances since they assumed control of the Fayette county soft coal fields on Saturday.

Three workers, two coal company police, five pickets and one by-stander were injured in the outbreaks.

Governor Pinchot called for a "peace conference" of officials of the H. C. Frick Coke company and striking miners in Harrisburg tomorrow, but Thomas Moses, president of the Frick company, immediately turned down the offer of mediation.

The Frick company, a U. S. steel subsidiary, owns 20 of the 30 or more mines closed or partly closed by the strikes.

Pickets Throw Stones

Meanwhile the belief persisted that more troops would be ordered out to reinforce the 325 sent to the strike area Saturday.

This belief was heightened after a clash between pickets and Frick company police at the Leckrone mine, 20 miles south of Brownsville and eight miles below the military-patrolled area mapped out by the guardsmen.

The trouble started when workmen crossed the road to get some horses. Pickets began stoning the miners and two of eight company policemen, Steve Jernic and Rockwell Kane, were struck by Stones.

The police hurled tear gas bombs to cover their retreat and one of the bombs hit the 16-year-old son of one of the pickets.

The hurried arrival of 25 militiamen stopped the affray.

At Colonial mine No. 3, five pickets were hurt in a clash with workers before troops arrived.

Burridge Teams Up With Dillman

Cadillac, Mich., July 31 (AP)—A. L. Burridge, district engineer for the state highway department who has been released effective tomorrow, has announced formation of a partnership with former state Highway Commissioner Grover C. Dillman in a consulting engineer service with offices here and in Lansing.

Dillman now is public works director in Grand Rapids. Burridge said he and Dillman would specialize in county highways and municipal street projects.

POWER LINE ORDERED

Knoxville, Tenn., July 31. (AP)—The Tennessee Valley authority today moved another step nearer its goal of developing the Tennessee basin by announcing that preliminary plans had been ordered for the construction of a power transmission line between Muscle Shoals and the Cove Creek dam site in Tennessee.

HOTEL BOMBED; 10 DIE, 50 HURT

City in Czechoslovakia Rocked by Early Morning Blast

Brunn, Czechoslovakia, July 31 (AP)—A bomb explosion today in the four-story Hotel Europa killed about ten persons and injured 50 others here today.

Scores of guests were buried in the wreckage when the blast tore away the entire front of the building but authorities had difficulty in determining the exact number of victims.

After a hurried investigation, police said the bomb may have been set off by a man who wished to kill himself and his wife and child.

Several of the injured were said to be critically hurt.

The entire city was rocked by the explosion and flames shot 200 feet into the air. The disaster occurred at 7:45 a. m. when most of the guests were in the hotel.

The first floor of the hostelry was demolished and windows of other buildings in the vicinity were broken.

The rescue work was done by police, firemen and soldiers, who also were called on to maintain order among the frightened populace.

The search amid the ruins went on throughout the day under great difficulties, while officials sought to determine with certainty the cause of the explosion.

Brunn, a city in west central Czechoslovakia about 110 miles southeast of Praha, has a population of 263,646.

California Adopts 2½ Cent Sales Tax

San Francisco, July 31. (AP)—Governor James Rolph Jr., signed today a bill levying 2 1-2 per cent tax on gross retail sales. The measure is effective at midnight.

The governor indicated his opposition to the state income tax law also passed by the legislature, although he did not directly announce he would veto the measure. He referred to the sales tax bill as being "The only revenue producing measure passed by the the legislature."

Lindberghs Fly Over Ice Fields

New York, July 31. (AP)—Col. and Mrs. Charles A. Lindbergh today completed a five hour flight over the inland ice fields of Greenland, a message received from their base ship reported.

The message, received from the S. S. Jelling off Godhaven, was addressed to Pan American Airways, for which the Lindberghs are making an aerial survey of Greenland.

DIES AT 97

Detroit, July 31. (AP)—"Grandma" Christine Lahser, 97, one of the pioneers of Redford, Detroit suburb, formerly called "Sand Hill," is dead at her home here. She had spent 79 years of her life in Detroit and vicinity. Funeral services will be held Wednesday.

FORMER SENATOR DIES

New York, July 31. (AP)—Karl Schyler, 56, former United States senator from Colorado, died in the Lenox Hill hospital tonight of injuries suffered in an automobile accident July 17.

Return Of Urschel Fails To Develop

Oklahoma City, July 31 (AP)—The family of Charles F. Urschel, oil millionaire kidnaped by two machine gunmen July 22, waited in vain today for word from his captors.

Arthur Seeligson, named by Mrs. Urschel as chief intermediary, said she was "getting along fine," but remarked "each day it gets a little harder for her."

Seeligson spent the day at the Urschel home in the hope of getting some word from the kidnapers.

CITY MANAGER IS REINSTATED

Grand Rapids Council Reverses Action on Ernest Conlon

Grand Rapids, Mich., July 31 (AP)—On the eve of a hearing on contempt of court charges against four city commissioners for voting to dismiss City Manager Ernest T. Conlon, the commission tonight voted, 5 to 2, to reinstate him.

The contempt charges are predicated upon a temporary injunction which restrained the commission from discharging Conlon without a hearing.

Commissioner John Raterink, who had led the fight against Conlon, tonight offered the motion for reinstatement. He explained he had disqualified himself for voting on the discharge because of previously expressed censure of Conlon. Commissioner John McNabb, who also voted last week to discharge the city manager, also changed his vote tonight.

Commissioners George Veldman and Henry Walstrom, named in the contempt citation with Ratering and McNabb, voted against reinstatement.

Conlon, a former state senator, made a brief speech of apology after the vote was taken. He said he "regretted exceedingly" if he had brought any embarrassment upon the commission by remarks he had made after the vote to discharge him.

The charges upon which he was dismissed included hiring and discharging city employes for political purposes and insubordination.

Boat Capsizes In Storm, 20 Drowned

San Sebastian, Spain, July 31 (AP)—Eleven bodies had been recovered tonight following upon the capsizing yesterday of the motorboat Jesus.

Search was continued for bodies of the rest of the twenty persons who disappeared when the little boat turned over in a storm while hundreds of persons looked on. No survivor has been found.

BOYS SAVE HOME

Strongs, Mich., July 31 (AP)—Members of Civilian Conservation Corps No. 668 saved the burning home of Lyman Pearson today near the Marquette National Forest, after a bucket brigade formed by neighbors had not succeeded in checking the blaze.

MAN TURNS KILLER

Nogton, Kan., July 31 (AP)—Wilfred Lund, 35, today killed his estranged wife's employer, Frank McCune, about 55, officers said, wounded the latter's father, Bob McCune, 75, fired several ineffective shots at his wife and committed suicide.

Highway Construction Program Agreed Upon At Conference Here

Representatives of Marquette, Menominee and Delta counties, meeting in Escanaba yesterday, agreed to the appointment of committees from each county, to meet with State Highway Commissioner Murray S. VanWagoner when he comes to Escanaba on Wednesday, to urge that after federal funds have been allocated to each county for highway construction work, all possible state and federal funds remaining, be used for the completion of the pavement on U. S. 41 between Hansen and Powers.

It was also agreed it should be recommended to the state highway commissioner that when U. S. 41 north from Gladstone is improved, it should be routed over the present state highway M. 35, as far as Lathrop or McFarland and connected with the present U. S. 41 route at Carlshend.

Delta Wants U. S. 2 Paved

Representatives of the three counties met at the Delta hotel at 2 o'clock yesterday afternoon, when the highway problems of this section of the peninsula were discussed and while delegates from both Menominee and Marquette displayed a greater interest in the completion of the concrete pavement on U. S. 41 in Menominee county and the improvement of that route north from Gladstone, the interest of Delta county in increasing the pavement mileage on U. S. 2, east from Gladstone was recognized.

Alarm was expressed by all of the delegates over the competition that would develop through the completion of U. S. 141 through the peninsula from the Wisconsin state line and it was agreed that every possible effort should be centered on the completion of the U. S. 41 pavement both in Menominee county and north to Marquette. It was pointed out that the eventual construction of U. S. 141 would route much traffic coming into the peninsula from Wisconsin, over a highway that would miss Menominee and Escanaba, as well as Marquette.

Report Drafted

FEDERAL BONDS IN BIG DEMAND

Security Issue of 850 Million All Sold, Says Treasury

Washington, July 31 (AP)—Taking the first opportunity to join the government in its industrial recovery program, investors today sent in enough subscriptions to cover the $850,000,000 security issue offered for sale this morning by the treasury.

At the close of the day, Dean Acheson, the acting secretary, said the subscriptions indicated both the $500,000,000 bond issue and the $350,000,000 note issue had been oversubscribed.

The treasury offered the eight-year 3¼ per cent bonds in denominations as low as $50 with the promise from Secretary Woodin and Acheson that every small investor who asked for $10,000 or less of the bonds would have his order filled. The treasury was undecided late today whether to close subscriptions at once.

The sale of the securities is expected to enable the treasury to have a cash balance in the general fund on August 15 of more than $1,000,000,000 to meet any expenditure that may arise in the recovery program.

Later on, the treasury announced it had closed the subscription books on the notes issue and was closing the books on the bond issue for cash subscriptions of over $10,000. It added that the books would remain open for subscription up to and including $10,000 on the bonds and for the subscription in which payments in the certificates maturing on August 15 and September 15 are offered in payment.

The treasury did not announce the total amount of subscriptions it received.

Streets Flooded In Florida Storm

Tampa, Fla., July 31. (AP)—The tropical disturbance passed into the Gulf of Mexico today after bringing light gales to a strip of the lower Florida west coast.

Nowhere along the area traversed across the state from the east coast where it entered yesterday afternoon was any appreciable storm damage reported, except for scattering citrus losses which remain unestimated.

Heavy rains caused minor damage in some localities, flooding sections of highways. Highway traffic ploughed through water along portions of the Dixie highway near Stuart, but so far as was known all roads were open.

Water stood in the streets at Palm Beach and large areas of sparsely populated pine and grove lands in Martin and St. Lucie counties on the east coast were inundated.

Gandhi Is Placed Behind Bars Again

Ahmedabad, India, Aug. 1 (Tuesday) (AP)—Civil authorities, forestalling the intention of the Mahatma Gandhi to lead a march of followers in augurating a new disabedience movement, early today arrested the aged Indian leader, his wife, his secretary and 32 followers from his Ashram, or college of devotees, at Sabarmati.

The arrests were made at 1:40 a. m., under the emergency power act at the bungalow of the Mahatma's host, Seth Ranchaaddass, a wealthy mill owner.

CAP IS CLUE

Cheboygan, July 31 (AP)—C. B. Kniffen, of Mackinaw City, is held in the county jail here on a charge of burglary, because police identified him as the owner of a cap found under the windows of the home and Mrs. W. E. Grah, of this city. The police said a search of Kniffen's home revealed loot taken in a number of recent house robberies.

HEAT SIZZLES NATION; MORE THAN 40 DEAD

ONLY MONTANA HAS COLD WAVE, TOP COATS WORN

(By The Associated Press)

Summer sizzled to its zenith throughout the east and in parts of the Middle West yesterday with an accompanying toll of more than two score human lives.

In New York, where ten deaths were attributable to the heat, the temperature hit 100 for the first time in 15 years, but it was hotter than that on the blistering asphalt pavements below the elevated structures and in the stifling subways where sweating thousands ride tightly packed to and from their work.

President Swims

Up the Hudson, away from the city, it was hot, too, and President extended his week-end at Hyde Park. His high-ceilinged study was swept by breezes, but they were hot breezes and he headed for his swimming pool as quickly as he could.

Philadelphia, with a temperature of 99 and New Haven, Conn., where the mercury dropped after a maximum of 97 Sunday, each reported three deaths. It was 100 in Baltimore, for the first time in two years, bringing two deaths from heat and three drownings.

Boston after sweltering through a 98-degree Sunday which brought two prostrations, one fatal, enjoyed cooler weather as the result of thunder showers. In Washington it was 97 and a couple of persons were prostrated.

Detroit Has 95

Six died in Chicago's steamy 94 degrees heat Sunday and the temperature was only three points lower yesterday. Detroit reported 95, with three deaths and numerous prostations.

West winds cooled the Imperial Valley after a week of blistering heat which took five lives there and five others in Southern California desert areas. Utah, after suffering 90-degree weather for 20 days without a breaw, finally enjoyed a cooling rainstorm.

Damaging storms accompanied the intemperate weather. Four persons were killed in a Texas windstorm and at Portland, Me., five were injured by lightning and crops and property damaged by rain and hail.

It was cooler in the south than it was in the north. Atlanta, New Orleans, Nashville and Little Rock reporting seasonal temperatures of 90 degrees. The weather also was normal, in the southwest and in northern California.

In Montana, in fact, there was a "cold wave." Thermometers dropped sharply to between 60 and 44, and many persons wore topcoats.

SOLUTION NEAR IN KIDNAP CASE

Return of O'Connell's $40,000 Ransom Predicted

BY WALTER T. BROWN
(Associated Press Staff Writer)

Tlbany, N. Y., July 31 (AP)—A general round-up of those who kidnaped Lieut. John J. O'Connell and recovery of the $40,000 ransom money within the next week are confidently expected in official circles.

One of the men investigating the abduction told The Associated Press that the arrest of "one individual" will spring the trap on all who had a part in the snatching of the 24-year-old nephew of Ed and Dan O'Connell, upstate Democratic leaders.

If, and when, the kidnapers are brought to trial they likely will face more severe penalties, if convicted, than now exist. Governor Lehman was prepared to ask the legislature tonight to stiffen the penalty which is 10 to 50 years imprisonment, providing the death penalty in some cases.

Although an attendant at the mountain camp of Dan said Johnnie had left there it was generally believed he has not left the remote Helderberg retreat since he was delivered there before dawn on Sunday morning. District Attorney John T. Delaney, in charge of the investigating, has refused to let O'Connell be interviewed until after the prosecutor has questioned him further. O'Connell was kidnaped on July 7 and held in a New York City flat until his release in East 220th street (the Bronx) at 1 a. m. Sunday.

Vernon Robbery Suspect Quizzed

Owosso, Mich., July 31 (AP)—Nick Paris, 23, brought here from Detroit this afternoon as a suspect in the robbery of the Vernon State Bank last Friday, will be arraigned tomorrow, officers said, on a charge of robbery armed. Held with him as a material witness is Miss Mildred Yoho, also of Detroit.

The Vernon bank also was held up on January 19, and Frank McDivitt, assistant cashier on duty at the time, has identified Parisi as one of the men in that robbery.

KIDNAPER DOOMED

First man in the United States to be sentenced to death for kidnaping, Walter H. McGee is shown at the door of his Kansas City cell after his conviction as the abductor of Mary McElroy.

RETRIAL ASKED FOR GANSTERS

Prisoners at Marquette Claim Alibis in Petitions

Detroit, July 31 (AP)—An application for leave to file a motion for a new trial on behalf of three reputed Purple gangsters serving life sentences for murder in Marquette prison is on call tomorrow before Recorder's Judge Donald Van Zile.

Supporting the application, which Prosecutor Harry S. Toy has served notice he will oppose, are thirty affidavits purporting to show that the prisoners, Ray Bernstein, Irving Milberg and Harry Keywell, were elsewhere when three men were shot to death in a Collingwood avenue apartment house two years ago.

Some of the affidavits claim Keywell and Bernstein were placing race bets by long distance telephone at the hour of the slayings. Others purport to show that Milberg was asleep after an all-night card game. The petition also sets forth that Harry Fleisher, named in the original murder warrant, was in the Reading, Pa., jail on the day of the triple slaying. The case against Fleisher was dismissed without prejudice when Solly Levine, the state's star witness, disappeared.

A new trial was denied the defendants by the supreme court, the ruling pointing out that it was within the power of the trial judge to grant a new hearing in the event new evidence were brought to light.

Old License Tags No Longer Legal; Arrests Ordered

Lansing, July 31 (AP)—The deadline for the purchase of 1933 automobile license plates on the half-year installment plan expired tonight.

Frank D. Fitzgerald, secretary of state, reported a last minute rush by thousands to purchase their plates today before it was too late. Police have authority to arrest motorists using old plates from now on.

Fitzgerald estimated that about 200,000 of the 412,000 automobile owners who purchased half-year stickers will be without new plates Tuesday. He said he expected most of that number, however, will buy plates before the end of the year.

The department of state as of July 1 had sold 1,037,527 licenses including the half-year stickers. This compared with 1,108,000 the same date in 1932.

Nash's Widow Held On Murder Charge

Kansas City, July 31 (AP)—First degree murder charges were filed today against Mrs. Frank Nash, widow of the federal convict slain with four officers at the Union station plaza June 17, and Herbert Farmer, Joplin, Mo., former convict, and his wife, Mrs. Esther Farmer.

They were accused specifically of the slaying of Raymond J. Caffrey, federal agent.

Mrs. Nash is alleged to have given information of Nash's arrest at Hot Springs, Ark., in a telephone call to the Joplin home of Farmer, which the government charges was used for a relay point through which a rescue party was organized.

RETAIL CODES PROVIDE JOBS BY THOUSANDS

MOTORCAR PLANTS TO ADD 60,000 WORKERS

BY JAMES P. SELVAGE
(Associated Press Staff Writer)

Washington, July 31 (AP)—Shops and stores, small factories and large throughout the land will begin operating tomorrow on the forty hour week with higher pay for employes.

Through the general compacts their proprietors have signed with President Roosevelt and by special agreements that have been worked out for nine of the largest retail trade associations, the nation will begin its endeavor to stuff pocketbooks to a size that will meet rising prices and bigger factory output.

Blue Eagle Appears

The effective date for the president's agreement found the national recovery administration's blue eagle lifting its wings across the windows of thousands of stores to beckon shoppers to the support of the president's recovery plan.

While the changes were being worked out for the hardware, furniture, department stores, specialty shops, clothing and furnishers, mail order, dry goods, shoes and grocery and food stores, the steeel industry was consulting with industrial administrators over the final shape of the code for its establishments.

The retail code, embodying changes in the president's agreement, was proclaimed immediately effective. So was that for the grocery and food stores, the latter carried a 48 hour week and general provision similar to the agreement for other retail shops.

Lumber Code Prepared

Federal supervision appeared imminent for the oil industry with the presentation of a code drafted by the industrial administration after the widely separated factions of that business had failed to reach an agreement on trade practices.

The date that put the blanket agreement into effect also was likely to see the proclamation of a code for the wool industry. Hugh S. Johnson sent one of his aides to Poughkeepsie, New York, tonight to take the final draft of an agreement for that industry to President Roosevelt. If he approves it, the chief executive will order it into effect. The administration, too, had almost completed writing a code for the lumber industry.

MAKES MORE JOBS

Detroit, July 31 (AP)—From the metropolitan area and from outstate points, pledges poured in today at the office of A. J. Barnaud, district manager of the department of commerce, promising cooperation in the national recovery administration's re-employment program.

Barnaud said today that the great majority of the pledges came from employers of from two to 10 persons. He estimated the number of pledges at well in excess of 5,000 to date.

As Barnaud was surveying the mass of pledges, word came that the retail stores code had been approved by the N. R. A. Members of the board of commerce here estimated that this action alone would mean the additional employment of approximately 7,000 persons in the Detroit metropolitan area.

Publish Honor Roll

It has been unofficially estimated that the automobile industry's code will mean the addition of some 60,000 workers to the payrolls of motorcar plants in Detroit and Michigan.

Barnaud said he would have

University Reports Registration Gains

Ann Arbor, Mich., July 31 (AP)—Advance registration at the University of Michigan indicates an increassd number of entries this fall, officials of the college of literature announced tonight.

As July ends, 458 men have registered as entering freshmen, an increase of 148 over the 1932 figure of 310. Some 288 women have registered, an increase of 26 over last year's figure at this time of 262.

Thirty more students with advanced credits have entered than at this time a year ago.

Philadelphia, July 31 (AP)—The Curtis Publishing company today raised the wages of all office and factory employes at its Philadelphia plant, other than the salaries of executives, salesmen and other persons in special positions, by a sum slightly in excess of 10 per-

Daily Press to Sponsor Business Stimulator Plan

TRIPS TO WORLD'S FAIR, ALL EXPENSES PAID, TO BE GIVEN WINNERS IN POPULARITY CONTEST

The Daily Press has arranged to sponsor a Community Business Stimilar Plan that has been conducted successfully in over two hundred cities throughout the entire country, including a number of Michigan cities.

The merchants of Kalamazoo carried one out very successfully under the sponsorship of the Kalamazoo Gazette. Marinette is just about to start a similar campaign. Ironwood has one under way with almost sixty merchants cooperating toward its success. Enough Escanaba merchants have been enlisted in it to assure its success here.

There will be some two hundred or more contestants nominated to enter the contest. These will be young women from eighteen to thirty years of age, living either in Escanaba or anywhere in the entire trading territory served by The Press. The awards will go to the five girls obtaining the highest number of votes as business boosters during the period of the election.

The votes are secured through the giving of vote bearing coupons by the participating merchants to all customers, who are interested in helping one or more of the contestants. These coupons are given on cash purchases only or on cash payments on accounts, each dollar carrying a credit of one hundred votes.

The prizes are five-day trips to A Century of Progress Exposition, all expenses paid, to the five girls getting the highest number of votes. Three of these winners will be Escanaba or vicinity girls and the two other girls residing outside of this one in Gladstone territory and the other in Manistique trading area.

The popularity election will last eight weeks, beginning the first week in August and lasting until the end of September.

Full particulars regarding the election and the manner of nominating the contestants will be announced later.

PUSH CANDIDACY OF FITZGERALD

Organization Office In Lansing Opened by Carlyle Gray

Lansing, July 31 (AP)—An organization move to further the candidacy of Frank D. Fitzgerald, secretary of state, for governor in the 1934 campaign was reported under way today.

Carlyle M. Gray, who resigned last week as executive clerk in the department of state, established an office in a Lansing hotel to "do organization work." He also resigned his connection as secretary of the Republican League of Michigan, headed by State Senator Gordon F. Van Esenenaam, of Muskegon.

Gray refused to state the nature of his "organization work" or who his associates will be. Both he and Fitzgerald said the latter is not backing Gray's efforts.

"I am just undertaking a gamble which I cannot explain in detail at this time," Gray said. "It is my own idea and Mr. Fitzgerald is not financing the work or exercising any supervision over it."

Gray said he resigned his post with the Republican League of Michigan because of his association with Fitzgerald.

"After being associated with Mr. Fitzgerald the last ten years, naturally I would consider him the outstanding Republican for governor. I thought it would be more lecorous for me to resign as secretary of the league so I could feel free to do whatever I can for Fitzgerald," Gray said.

Fitzgerald has often been mentioned as a possible candidate for governor. He is the sole Republican member of the state administrative board. He was urged to make the race last year but decided to seek re-election as secretary of state. He was the only Republican state officer on the general election ballot to win over Democrats.

Braves President Buys Bob Smith

Boston, July 31. (AP)—In need of another starting pitcher, President Emil Fuchs of the Boston Braves today purchased right-hander Bob Smith from the Cincinnati Reds. Fuchs said the price was "considerably above the waiver figure."

Smith was one of the Braves' standbys, several seasons ago, until he was sold to the Chicago Cubs, who passed him on to the Reds last winter as a part of the deal for Babe Herman. A sore arm prevented Smith from showing to advantage with the Reds but his work against the Braves was good enough to impress Fuchs, who has been seeking a right-hander to fill in while Bobby Brown nurses his sore arm.

Sale of new automobiles in June of this year topped last year's sales by nearly 16 per cent.

ready for publication Wednesday the first honor list of employes pledging support to the recovery program. The list, he said, will be compiled by cities, industries and employing firms.

Acting Postmaster Roscoe B. Huston announced the posting of the names of firms complying with the recovery program stipulations will begin at the Detroit postoffice tomorrow.

Robert H. Scott, president and general manager of the Reo Motor car company, in a statement today said that while many of the policies advocated in the new auto code have been in general practice by his company for several years, a substantial number of employers will receive increases in their hourly rates to make application of the code complete "in every respect."

48-HOUR WEEK

Washington, July 31 (AP)—Hugh S. Johnson, the recovery administrator, tonight signed an executive order putting into effect temporarily a code of competition submitted by the furniture, hardware, mail order, clothiers and furnishers, shoes and dry goods retailers.

At the same time Johnson signed a separate order for dealers in food stuffs permitting them a 48-hour week whereas the agreement for retailers generally specified a 40-hour week.

The wage and hour sections of the codes presented by the two groups will become effective immediately pending consideration and approval of a permanent code for the two industries.

For the general retailers code a minimum wage of $14 in cities above 500,000 population was provided, $13.50 in cities of between 100,000 and 500,000 and $13 between 2,500 and 100,000.

Child labor is prohibited except for free hours between 7 a. m. and 7 p. m., and a one dollar differential is provided for 15 southern states and the District of Columbia.

The grocery code was approved by the National Association of Retail Grocers, the National Wholesale Grocers association, the National Retailer-Owned Wholesale Grocers, the National Grocery Chain Store association and food chain store distributors and voluntary groups.

It provided that no one should work more than eight hours in any single day except on the day preceding holidays but permitted an additional 12 hours figured over a six months period. Stores would be required to remain open 52 hours a week minimum except if they were open less than that before July 1, 1933, in which case the minimum would apply.

Minimum wages for the foodstuff dealers would be $15 in cities over half million population, $14.50 between 250,000 and 500,000 and $14 between 2,500 and 250,000.

The code does not apply to stores employing fewer than two persons in towns less than 2,500 population unless they are part of a larger trade area.

Officials calculated that 4,200,000 persons were employed in the retail lines affected and that the application of the code would provide employment for 1,100,000 more.

GAMBLING JOINS NRA

Reno, Nev., July 31 (AP)—Reno gambling houses joined President Roosevelt's recovery program today by adopting codes calling for a five day, 40 hour week for employes.

Hourly wages were increased, but the total monthly wage each will receive will be slightly less than before.

Gambling is legal in Nevada and there are several places here exclusively in that business.

BARBER PRICES UP

Pontiac, Ill., July 31 (AP)—Haircut and shave prices are going up here.

Tomorrow barber shops and beauty parlors will boost prices to 1929 levels, doubling some of them. The shops recently signed the national recovery administration blanket code.

NOT FOR HOTELS

Columbus, O., July 31 Harold Van Orman, Indiana and Ohio hotel operator, told the Ohio Hotel Association here today "there is not a hotel man in American who can survive and live under President Roosevelt's blanket code."

Van Orman, former lieutenant governor of Indiana, added "we have problems no other industry must face. All the king's horses and all the king's men can not prove to me that we can survive under conditions as laid down under the blanket code."

IN 15,700 STORES

New York, July 31 (AP)—The Great Atlantic and Pacific Tea company announced tonight that its 15,700 retail stores, offices, warehouses and food plants throughout the country, would begin operating tomorrow under the provisions of the national recovery act.

As a result of President Roosevelt's agreement with the retail grocery trade, the announcement said, "many thousands" of additional workers will be employed by the A. & P. during the next few weeks. Officials were unable at this time to give a more approximate estimate of the number of new jobs to be created.

Washington, July 31 (AP)—Here are some of the pertinent facts in connection with the retail codes made temporarily effective today by Hugh S. Johnson, the recovery administrator:

What type of stores are affected?

Retail dry goods, department, specialty shops, mail order, men's clothing and furnishings, furniture, hardwood and shoe store trades, food and grocery distributing agencies.

* * *

Are those accepting these provisions pending final approval of the code exempt from compliance with President Roosevelt's blanket agreement and allowed to use the blue eagle insignia?

The wage and hour sections merely substitute for the general blanket agreement and have the same effectiveness, which will allow stores to display the insignia.

* * *

Do the codes cover all retailers?

They apply only to those affiliating with the trade associations which presented the proposed permanent code of fair competition. Others may subscribe to the code but if they do not they must sign the president's agreement to obtain the official insignia.

* * *

What organizations submitted the code?

The National Retail Furniture association, National Retail Hardware association, Mail Order association of America, National Association of Retail Clothiers and Furnishers, National Retail Dry Goods association, National Shoe Retailers Association, National Association of Retail Grocers, National American Wholesale Grocers association, National Retailer-owned Wholesale Grocers, National Grocery Chain Store association and Food Chain Store Distributors, and voluntary groups.

* * *

Is there any weapon for enforcing signing of the code other than public opinion against those who lack insignia?

There is no other weapon.

* * *

Are restaurants under foodstuffs code?

They are not included now.

* * *

Is there a $1 differential in wage provided for the south due to cheaper living costs?

Yes.

* * *

Are drug stores included in the codes?

Drug stores have not come under a code yet and will be expected to sign the blanket agreement.

Spending Of Public Works Fund Hurried

Washington, July 31 (AP)—The public works administration expects to fill all existing vacancies on regional and state advisory committees before the end of this week in order to press forward as rapidly as possible the spending of the government's $3,300,000,000 fund.

Without waiting for the state committee machinery to be completed, the board of consultants to the administration on housing questions met in a round table discussion on various proposals to construct low cost homes. It was said authoritatively that no policies were determined at the session.

Meanwhile, the reclamation bureau estimated that construction of the Grand Coulee power and irrigation dam on the Columbia river would furnish some 30,000 man years of direct labor.

They figured five years for completion of the dam with an average annual employment of 6,000.

GABLE UNDER KNIFE

Hollywood, July 31 (AP)—Clark Gable, film actor, went to a hospital late today for an appendicitis operation. It will be performed tomorrow morning.

More State Employes Discharged at Lansing

Lansing, July 31 (AP)—George R. Thompson, state budget director since 1927, and Jack LaFountain, veteran executive in the auditor general's department, were ordered dismissed today.

LaFountain's place as disbursement clerk will be taken by Franklin L. Dodge, prominent figure in the murder trial of George Remus, six years ago at Cincinnati and former special prohibition investigator for the department of justice. Burnett J. Abbott, secretary of the state administrative board, will assume Thompson's duties without additional pay.

Appointed by Green

Thompson, who has been receiving a salary of $7,500 a year, was given a month's vacation with pay. Abbott will take over his budget duties, however, beginning tomorrow. Dodge's appointment is effective Aug. 15.

Governor Comstock said an assistant budget director probably will be appointed at some future date but "not very soon."

Thompson was appointed budget director by former Governor Fred W. Green in 1927. Prior to that time he was connected with the department of public works in Detroit. He said today he had no immediate plans for the future, declaring his dismissal came as a "surprise." It was revealed that the finance committee of the state administrative board recently recommended to the governor that Thompson be retained.

Dodge served a term at the federal penitentiary at Atlanta following his trial two years ago in Georgia on perjury charges. He will share the disbursing work in the auditor general's department with Robert Russell, of Cedar Springs. The work involves passing on all state vouchers.

LaFountain whom Dodge will replace has been with the department 24 years. Auditor General John K. Stack, in announcing the change, said it was made to check exorbitant expense accounts and to limit expenditures to those authorized to make purchases.

Abolition of the post of head of the traffic division of the state administrative board was also revealed today. The job had been held by H. T. Knowlton for the last 10 years. The position will be absorbed by the state accounting division, also headed by Abbott.

NRA EXEMPTION LIST ANNOUNCED

Professional Class Does Not Come Under 40 Hour Week

Washington, July 31. (AP)—New interpretations to clarify the president's voluntary re-employment agreement were issued tonight by the recovery administration, among them one providing for businessmen without employes obtaining the N. R. A. eagle insignia.

These may get the cooperators' emblem by signing the agreement and certificate of compliance.

Other rulings: Professional to whom the 40-hour-week limit does not apply, for purposes of the agreement include reporters, editorial writers, rewrite men and other members of newspaper editorial staffs; internes, nurses, hospital technicians and research technicians.

The "white collar" worker class limited to 40 work hours a week includes maintenance forces such as charwomen, window cleaners, etc.

Employes receiving $35 or more per week whose duties are in part but not wholly managerial or executive are not under work hour limits.

Non-profit organizations are counted as employers for all purposes of the agreement.

Trade areas of larger communities are defined as the territory in which there exists direct competition. If the question arises, the decision should be made by a chamber of commerce or similar organization subject to review by the state recovery board.

Asleep 18 Months, New Cure Tried On Patricia Maguire

Chicago, July 31. (AP)—Medical science today began another effort to rouse 28-year-old Patricia Maguire from the sleep in which she has been for almost 18 months.

Her physician began treatments which consist of typhoic inoculations to produce a fever, which it is hoped, will "burn out" the infection of sleeping sickness which has kept the girl in a coma since February, 1932.

Miss Maguire, an Oak Park girl, who was the secretary to a publisher, has been unconscious since the day she fell asleep in her home after suffering for a week or more with extreme drowsiness. During the long sleep she has contracted and recovered from pneumonia, has undergone a minor operation and has been given several blood transfusions. Her condition has changed very little, however.

Board Of Education Meets In Marquette

Marquette, Mich., July 31 (AP)—The state board of education held its monthly meeting at the Northern State Teachers college here today, the first in the northern peninsula in several years. The session was in the office of Webster H. Pearce, former state superintendent of public instruction who became president of Northern State July 1.

After the business meeting, the board members attended a college assembly program and spoke briefly, as did Wright B. Waldo, president of Western State at Kalamazoo and first president of the normal here. Later the members were guests of the Marquette Rotary Club at its weekly luncheon.

Downward Trend In Grain Curbed

Chicago, July 31 (AP)—Seeking to stem the downward trend in grain prices, directors of the Chicago Board of Trade after a protracted meeting tonight announced that "there shall be no future trading in grain and provisions below the closing prices on grain and provisions Monday, July 31, 1933." The ruling is effective until August 15.

The upward maximum fluctuations of 5 cents for wheat, barley and rye; 4 cents for corn and 3 cents for oats, are not affected by the order.

The order curbing downward currents in prices will remain in effect at least until the close of trading August 15 and if any change is to be made then three days notice will be given members of the board, the announcement said.

Shakespeare is said to have played the part of the ghost in his "Hamlet."

VOELKER VIEWS SCHOOL CRISIS

Some May Close Unless 15 Million Comes from State

Marquette, Mich., July 31 (AP)—Declaring that the school situation is the most challenging Michigan ever has had to face in education, Dr. Paul Voelker, of Lansing, state superintendent of public instruction, told the Marquette Rotary club this noon in the Hotel Northland that unless $15,000,000 is forthcoming from some source in the state many of its schools will be unable to run during the coming school year.

As an example of school conditions in the state Dr. Voelker, by an approximate chart, showed just how many schools cound run and for how long a period without state aid. He said that ten percent could operate the entire school year of nine months, 15 percent for six to eight months, 15 percent for five months, 25 percent for four months, 15 percent for two to three months, and 10 percent for only one month. Many more, he added, would not be able to open their school doors unless state aid is given immediately.

He estimated that schools of the state would get only about half as much money this year as they used last year for operation. He said that last year the schools spent $86,000,000, while it looks as though $43,000,000 will be alloted this year. He said that approximately $23,000,000 would be received from the property tax, $18,000,000 from the primary fund and $2,000,000 from miscellaneous sources, including the sales and beer taxes.

Dr. Voelker pointed out that the $18,000,000 from the primary fund is assured and two-thirds of this amount is ready to be distributed September 1. Last year $22,000,000 was assigned from this fund.

Dr. Voelker said he favored a combination of all boards of state education. This would mean one central body with a state head instead of the five which now serve the University, State college, Normal schools, Michigan College of Mining and Technology and department of vocational education.

He also advocated the formation of one county school executive board for the state and 83 boards, one for each county. At present he said that there are between 7,000 and 8,000 county and township board. Under one board in each county there would be a more permanent educational system, he asserted.

Funeral Provides Convict Getaway

Detroit, July 31 (AP)—Brought back from Ionia reformatory by special dispensation to attend the funeral of his sister, Andrew Gidlias, 18, escaped today when his guard acceded to his request that he be permitted to view his sister's body alone. He walked out the back door while the guard awaited him in a front room.

MARRIED 75 YEARS

Ludington, July 31. (AP)—Funeral services will be held here Tuesday for Charles Stevens, 94, of Elm Flats, north of Scottville. Stevens, who observed the 75th anniversary of his marriage a month ago, died Sunday after a three weeks illness. His widow, two daughters, two sons, nine grandchildren, 11 great grandchildren and one great-great grandchild survive.

CALUMET-HECLA OFFICIAL DEAD

Rodolphe L'Agassiz, 61, Was Son of Pioneer Copper King

Beverly, Mass., July 31 (AP)—Rodolphe L. Agassiz, 61, chairman of the board of directors of the Calumet and Hecla Consolidated Copper company, died today at his home at Pride's Crossing. He had been ill for some time.

Agassiz leaves his widow, the former Marie Dallas Scott of Philadelphia, whom he married in 1894. He was born at Cambridge and was graduated from Harvard. He was a director of the State Street Trust company, American Trust company and the Edison Electric Illuminating company. He also was a vice-president of the Massachusetts Hospital Insurance company.

Agassiz lived for many years in Hamilton, Mass., and was well known as a polo player. In 1914, however, he sold his string of ponies, declaring the game took too much time from his business. His father, Alexander Agassiz, who had been president of Calumet and Hecla for many years was a pioneer in the development of the American copper industry.

In 1910 Rodolphe Agassiz became vice president of the company.

He was defendant in two important Massachusetts court battles, one when he won a verdict in a $100,000 suit brought by the Bay State Wholesale Drug Co., for conspiracy to injure the plaintiff's business. The other suit was brought by Homer Goodwin, Boston broker in an attempt to force Agassiz to rescind the sale of 7,000 shares of Cliff Mining Co., stock. Agassiz won both suits.

Harriman Collapses At Sanity Hearing

New York, July 31. (AP)—The dramatic chain of events since the indictment of Joseph W. Harriman—on a charge of falsifying accounts in the bank he founded—attained another climax today when the former Fifth avenue banker collapsed in a torrid federal courtroom during a hearing on his mental condition.

Dr. Menas S. Gregory, head of the psychopathic ward at Bellevue hospital, in which Harriman has been confined since his second disappearance from a nursing home, reported to Judge Francis G. Caffey after an examination that the banker had suffered a serious heart attack and that his heartbeat was almost undetectible.

With the temperature above 90, the banker had sat several hours at his counsel table, his wife at his side. Once, he rested his head on the table and his wife produced smelling salts. This seemed to revive the banker. Ten minutes later, he collapsed and was halfled, half-carried from the courtroom.

BANK CONDITION MUCH IMPROVED

Loans to Both Open and Closed Institutions Show Decline

Washington, July 31 (AP)—Improvement in the condition of the nation's banks was reflected today in the June report of the Reconstruction corporation by a marked decline in authorizations for loans to both open and closed institutions.

The report, made public by South Trimble, clerk of the house of representatives, detailed a total of $198,304,439 in authorizations for loans and relief purposes, of which $119,059,404 was for financial institutions.

Advances authorized for self-liquidating employment-providing programs and storm and earthquake reconstruction projects aggregated $25,772,613, while the corporation turned over to the federal emergency relief administration $37,910,142 to be distributed among the tsates to care for the destitute.

Another item considered in the report was the cancellation or withdrawal in full during June of $65,168,619 in loans authorized since July 21, 1932. In addition, in the same month parts of authorized loans aggregating $1,728,352 were cancelled or withdrawn.

Under the new home loan bank act, the corporation allocated $200,000,000 to the treasury for the capital stock of the home owners loan corporation, which in addition has authority to issue $2,000,000,000 in bonds to refinance home mortgages.

Governor To Name Race Commissioner

Lansing, July 31 (AP)—Governor Comstock said today he would appoint a racing commissioner as soon as the state administrative board accepts a bid for the rental of the state fair ground property at Detroit.

Samuel T. Metzger, commissioner of agriculture, said Saturday that an offer of the Detroit Racing association headed by Charles B. Bohn, was being favorably considered. The announcement followed a previous statement by the governor that the lease probably would go to Charles W. Bidwell, head of the Chicago stadium.

FOREST BLAZES HIT WISCONSIN

Worst Near Mercer, Iron County, Threatens Village

Milwaukee, July 31 (AP)—Forest fires were spreading rapidly over various parts of northern Wisconsin today as hundreds of volunteer fighters and fire wardens fought with little success to curb them; it was estimated that as many as 40 separate fires were burning.

The most serious was reported west of Mercer in Iron county. The blaze, which started several days ago, was headed toward Mercer, about eight miles away.

A force of 200 men from the Federal Conservation camp at Manitowowish, which has been battling the fire since the start, was augmented today by 50 men from Mercer.

At noon today the fire was reported to be advancing on a six mile front.

A country school, farm buildings, and a half dozen settlers' shacks were destroyed by Lincoln county fires yesterday. Occupants of other farm homes were forced to evacuate.

Wardens charged campers and berry pickers had started 20 to 25 fires.

Nine fires were reported around Rhinelander, five of them under control.

Guests of one resort and residents of several cottages near Pickerel Lake, 30 miles northeast of Antigo, moved out last night. Three hundred men from the conservation camp at Summit Lake were mustered by the wardens in an effort to save property.

Girls Insane, Keep Family Imprisoned

Jackson, Ga., July 31 (AP)—Misses Allie and Grace Jarrell, who held their mother and elder sister prisoners without food for ten days and barricaded themselves in their home here were adjudged insane today by a lunacy commission, after testimony that they imprisoned them because they feared kidnapers.

They tore their clothing and sang when examined by the alienists today.

SAWMILL FIRE LOSS $10,000

Ties and Lumber Also Destroyed at Cleereman Plant

Fire of unknown origin destroyed the sawmill of the Cleereman Land and Lumber company, north of Rapid River, early Sunday morning, causing a loss estimated at $10,000. The loss is partially covered by insurance.

Two carloads of ties, one carload of hardwood lumber and an empty box car on the Chicago and North Western railway tracks nearby were also burned.

The fire broke out about 1:30 o'clock in the morning. A farmer, who was driving to his home in vicinity, reported that there was no sign of fire when he passed the mill, but that when he was about three quarters of a mile away, he looked back and noticed that the skies were aglare.

Fire fighting equipment of the state conservation department was taken to the place to prevent the spread of the flames. Large piles of lumber, ties, posts and pulpwood, which were standing in the yards, were saved.

The sawmill was built in 1919, and had just resumed operations two weeks ago after a several months' shutdown. The company plans to rebuild.

DIAMOND BALL

"Philthy Phil" Miron's Coaldusters proved to the Caslon Bonds and to the fans at large that they were the Papermaker's jinx as they set down their foes 3-2 after a thrilling game. The Bonds who were tied with the Northland Cafes for first place dropped like a plummet into second while the Bears now occupy the top niche alone. Wilson pitched a wonderful game for the Coaldusters, bearing down mightily in the pinches and allowing eight bingles, one a home run by Geo. Miron. Dorenbecker throwing for the Bonds also turned in a fine performance. Batteries: Miron's, Wilson and Lasak, Bonds, Dorenbecker and Lasak.

The Northland Cafes remained top-dog for the time being as they walloped the Munising Bottling Works 9-4. The Bottlers were roughly treated during the first four innings, as the league leaders batted around and piled up their nine run total.

The Popmakers settled down and blanked their adversaries in the final innings, scoring twice themselves in two run sprees. Batteries: Bottlers, Dott and Revard. Northland Cafes, E. Artibee and Dale.

The Lake Superior Ice company's diamond ball crew from Marquette were denied revenge as they played their return games with the Northland Cafe gang Sunday night, the Bears taking both contests, 8-4 and 7-1. The first game was interesting to the fair sized crowd which turned out, both clubs playing spectucular ball. The Bears made a drive in the seventh frame to score 3 runs and salt the game away. In the nightcap, the Cafe crew had everything its own way, an error robbing E. Artibee of a shutout. Batteries: first game, L. S. I., Brigman and MacPherson. N. Cafe, E. Aribee and Dale. Second game, L. S. I., Young and McPherson, N. Cafes, E. Artibee and Dale.

Kittenball fans here are all set to witness the match between the Northland Cafe Bears and the Gladstone Swedes next Thursday night. While the visitors are favored to win, many bugs concede the hard clouting Bears an excellent chance of knocking off the Bay Towners. A feature of the game will be the pitching of Duke Ducheney, the strikeout artist whose smoke ball has been justly praised throughout the peninsula.

Marquette Girls In Chicago Mishap

An attempted highway flirtation was blamed for a crash at Blue Island, near Chicago, when an automobile catapaulted into the yard where Justice of the Peace Anthony Heintz was sitting with his family.

The injured were all taken to St. Francis hospital in Blue Island. Justice Heintz, who is 56 years old, is suffering from a broken leg and arm and Mrs. Heintz, who is 54, has hip and leg injuries. The two daughters, Harriet, 26, and Eleanor, 14, were also severely injured.

The girls in the car were Miss Dolores Wierby, 19, of Hartford, Conn., the driver, Miss Virginia Gorst, 18, and Miss Louise Collins, 19, both of Marquette, Mich., and Miss Gertrude Ruhlig, 20, Bay City, Mich.

The girls were driving south, enroute to Kankakee, and were about 200 feet from the Heintz home when a north bound car containing three or four young men approached. The men waved their hands at the girls. The driver in waving, lost control of his car and the car sideswiped that of the girls. The collision sent the girls' automobile off the road and upon the sidewalk, squarely into the Heintz family group.

Arntzen Lands Damaged Plane On One Wheel

While taking off at the Escanaba airport last night with a student flier in a training ship, Lieut. Walter Arntzen broke a strut on the landing gear of his plane. He noticed the mishap, and while in flight inspected the break to see which wheel was affected. Manuvering the plane, Arntzen made a successful forced landing on one wheel at the south beach. The broken strut dug into the ground as the ship slowed down, damaging a wing tip and propellor as the plane nosed over, but Arntzen and the student, Raymond Bredahl of Wells, escaped without a scratch.

DEATH CLAIMS CITY PIONEER

Mrs. Emma Peterson, 73, Lived in Escanaba 50 Years

Mrs. Emma Charlotte Peterson, 73, a resident of Escanaba for 50 years, died Monday at 12 o'clock noon, at her home, 820 First avenue south.

She had been in poor health for the past six years and had been confined to her bed since she suffered a hip fracture last January.

Mrs. Peterson was born in Karlskoge, Varmland, Sweden, May 12, 1860, and came to this country in 1882. She took up her residence in Escanaba at once upon her arrival and had lived here continuously since that time.

She was a member of the Swedish Methodist Episcopal church and was identified insofar as her health permitted, with its activities.

The body was taken to the Anderson Funeral Home to be prepared for burial and will remain at the home. Funeral services will be held Thursday afternoon at 2 o'clock in the funeral home chapel and at 2:15 o'clock at the Swedish Methodist church. Rev. Karl J. Hammar will officiate. Burial will be in the family lot in Lakeview cemetery.

Mrs. Peterson is survived by two brothers, Charles Gustafson of Escanaba, and Andrew Gustafson of Danforth, and by one sister, Mrs. Charles Johnson of this city. Mr. Peterson, who was prominently identified with Escanaba's early development, and who will be remembered for the old Peterson Opera House, of an earlier period, preceded her in death, passing away on October 27, 1923.

Its ONE BIG FEATURE is that it has MORE THAN ONE BIG FEATURE

There's a new motor fuel at all Standard Red Crown pumps these days . . . it's priced no higher than regular gasoline . . . and here's the reason you should try it:

It's a motor fuel in which *every* essential quality has been given full emphasis . . . no one feature pushed forward at the expense of any other. High in anti-knock (the very top in its price class), but also free from sulphur and gum. Quick as a flash in starting, but also strong on mileage. And so on, right down the list of things that *count* when it comes to motor performance as you like it.

You've paid a premium for these qualities in the past. But now Standard Oil Company is able to give you this new Superfuel, Standard Red Crown, at no extra cost. Try it!

THE COMPLETE NEW SUPERFUEL

Some "regular" gasolines may equal Standard Red Crown in one or two qualities—none surpasses it. And we believe that not one equals it in all the essentials of good gasoline.

1 Top anti-knock rating for its price class.
2 Unsurpassed in starting, acceleration and mileage
3 Free from harmful sulphur and gum.
4 Accurately adjusted for seasonal variation.
5 Always uniform everywhere.
6 Fresher because of Standard popularity.
7 Sells at the price of regular.

NO PREMIUM
5 Gals. 86¢ TAX PAID
(Price applies to city proper. May vary slightly elsewhere.)

CONTRACT IS AWARDED

IF A contract negotiated by Gov. William A. Comstock with a racing syndicate for the leasing of the Detroit State Fair grounds at an annual rental of $480,000, is carried out, the people of the state of Michigan will likely be forced to the conclusion that the Detroit fair grounds constitutes a piece of property it will pay the state to continue to own. At the recent session of the state legislature it was recommended that the Detroit fair be converted into an industrial exposition and a portion of the grounds disposed of. In light of the contract negotiated by the governor and formally signed by Samuel T. Metzger, state commissioner of agriculture, on Saturday, it is not probable that the recommendation will ever be carried out.

All of this was made possible through the passage by the last legislature of a state race betting bill. That the passage of this measure would immediately make the Detroit fair grounds just about one of the most valuable pieces of property owned by the state, was probably not fully appreciated by even the legislature. Attention was rather centered upon the revenue that would accrue to the state and to state and county fairs, through the operation of the pari-mutuel betting bill itself. The betting bill carries, among other things, a specific provision, made possible through the efforts of Senator W. F. Doyle, that $25,000 shall be annually appropriated from this fund for the support of the Upper Peninsula State Fair in Escanaba.

Under the terms of the contract entered into by the state for the lease of the Detroit racing plant to a syndicate, headed by Charles W. Bidwell, of the Chicago Stadium corporation, the state is to receive $4500 a day for each day of a 100 day racing meet and in addition will also collect a bonus of $30,000.

A piece of property considered by many as one of the state's major white elephants will thus return in rentals each year a sum well in excess of what would be considered by many as a fair knock-down purchase price for the property.

A MONTH OF CONVENTIONS

ESCANABA is to play the part of host city this month to a round of conventions such as few cities in the peninsula have ever had the honor to entertain.

The month of conventions will be launched on Wednesday when members of the University of Michigan club, of the upper peninsula, will meet here for the annual sessions of that organization.

On Sunday, Kiwanis of Wisconsin and the upper peninsula will open a three day convention in Escanaba. It is expected that this gathering will bring at least 600 visitors to the city.

On Aug. 9 and 10 members of the Eastern Star of the upper peninsula will gather here for a two day convention and on Aug. 10 and 11 members of the Upper Peninsula Medical Society, with distinguished members of the profession both in the state and nation as guests, will convene here.

Members of the Automobile Dealers Association of the Upper Peninsula will also meet here for a one day session on Aug. 11.

On Aug. 22, 23 and 24 what is expected to prove the largest convention ever entertained in an upper peninsula city, will be staged, with the coming of members of the Ancient Order of Hibernians from every section of the state.

Escanaba's round of conventions will close with the meeting of the Upper Peninsula Bottlers Association here on Sept. 27 and 28.

The people of Escanaba, already widely known for the spirit of hospitality that maintains here, will join during this period in a common effort to make as delightful as possible the visits of their guests and nothing will be left undone to enhance Escanaba's reputation as a convention

OLD AGE PENSION "FLOP"

THE inadequacy of Michigan's old age pension law was stressed at a meeting of the Upper Peninsula Association of County Superintendents of the Poor in Munising this week when W. S. Carpenter, director of welfare for the state, presented some interesting figures dealing with the situation in Michigan.

The 1930 census for the state shows there are 278,712 persons between the age of 21 and 70 who might be subject to an annual tax of $2 for the old age pension fund. The total revenue, using those figures, would be $5,537,424. But the welfare department estimates there would be 167,207 persons eligible for old age pensions who, if they were paid the maximum amount of $30 a month, would draw from the state treasury about $60,000,000 a year. The income provided under the law would approximate nine per cent of the money actually needed to take care of the maximum requirements of the old age pension law.

There are no means to estimate closely the revenue that would be available under the $2 tax law. Collection costs and wholesale evasions that may be anticipated make it difficult to arrive at a dependable figure. The maximum requirement of $60,000,000, however, likewise is an uncertain figure and more than likely that estimate could be reduced by 50 per cent. But that would still leave the state far short of sufficient funds to put an old age pension law into effect.

It is interesting to note, also, the observations of the welfare director regarding the purpose of the old age pension law, namely to get rid of the poorhouse. The welfare director reports that less than two per cent of the individuals in county infirmaries are more than 70 years of age, 70 years being the minimum age requirement for qualifying for a pension.

Altogether, it may be assumed that Michigan's old age pension law will be a big "flop." When the income and cost are so widely divergent there can be no hope for its success.

MUCH IN LITTLE: "NIRA" AND "FRA"

USAGES of two new brevities, spelled in capitals, is increasing. NIRA, suggesting a girl's name, signifies the National Industrial Recovery Act. FRA, though otherwise "brother," is short for the Farm Recovery Act. As we read of the codes defining fair practices and fixing wages and workweeks, being imposed from Washington under President Roosevelt's extraordinary powers, that is NIRA at work. The rising prices of wheat and bread tell of FRA in operation.

During the Great War, especially in England, the sweeping laws extending government regulations and prohibition into nearly every phase of private life came to be known by their initials. The like naturally occurs during this country's great war against the depression. So much has seldom been put into seven letters and the United States public generally prefers to make it short and snappy. NIRA and FRA seem destined to "take" in our daily American speech and writing. As to whether eventually they will be held in affection or abhorrence, must not that depend upon how much their R's prove to mean?

In the sufficiency and spread of the recovery they bring lie ample makings of the people's love or hatred.

A KANSAS EXPERIMENT

THE Missouri Pacific railroad is conducting an experiment in Kansas which will be watched with interest by other railroad managements and by the general public. It is operating three truck lines. Its purpose, as frankly explained by an executive of the road, is "to speed up service and get the business."

One of those lines has taken the place of a freight train. The truck does the 174-mile round trip in a day, makes deliveries at railway stations en route, picks up any freight consigned from these points, all at an operating cost of $35 a day, compared with the freight train's daily cost of $123. Substantial savings in time are also reported.

There can be no question about the privately operated truck's "speeding up service and getting the business." And why a railroad cannot render the same service, with the same facility, more capably and at less cost than the individually owned and operated truck is something the average person has never been able to understand. Perhaps the Missouri Pacific will succeed in convincing itself and every other railroad that the thing can be done. If it does, this Kansas experiment is likely to have far reaching results.

CHAPTER XLII

Elinor could not see Barrett's eyes as he spoke. "I thought," he said wearily, "that it might be better for me to go away for a while. I thought perhaps you'd rather not see me often."

"This trip to South America—" she said hesitatingly, "is it work that interests you?"

"It would have—once," he replied.

Elinor rose then and started toward the door but he halted her.

"Elinor!" Barrett said brokenly.

She paused without answering.

"Don't hate me more than you have to, will you? I'm sorry I can't explain it all to you. I'm only trying to do the right thing—"

"I don't hate you, Barrett," she assured him, "but I just can't talk about it. I'm trying to see your side. Perhaps with time I'll be more reasonable. I hope so. I'll try to be! Just now—"

"Oh, I know!" he said darkly.

He was beside her and for a moment, with a harsh little murmur, he caught her in his arms, holding her close. She did not try to draw away, wanting to feel his arms about her, yet unable to yield, to let him know the emotion she felt.

When his arms dropped she said, "Barrett—"

"Yes, Elinor?"

"How long will you be gone?" There was fright in her voice and loneliness.

"Four or five months, I suppose," he answered. "Unless you should send word for me to come back and I don't suppose there's any hope of that."

"I don't know. I don't think I even understand myself. I don't know what is the matter with me or why I feel the way I do. Of course I've always known there was this sort of thing in the world. All my life I've seen deceit—"

"And it has made you hate it even more than you would normally," he said. "I understand that. Well," he made an unsuccessful attempt at cheerfulness, "we'll see about a place in the country. What sort of place do you think you would like?"

"I don't care. Whatever you think best—"

"Before I start we'll drive around a bit and see what can be found."

So he was going, Elinor realized. He really was going away to leave her for months and months. The thing was settled, a certainty.

"Do you suppose," she faltered, flushing, "that the little boy will like me?"

Barrett smiled his first genuine smile. "I think he may!" he said with a rising inflection that made her know he was teasing. Quickly he stooped and kissed her hair. He said almost harshly, "Now run along!"

She was gone then. Alone Barrett paced the room. Back and forth. Back and forth. He tried to get it all straight in his own mind, thinking about Elinor, about Marcia, about the trip to South America and the miles and miles of land and water there would be between Elinor and him once he was on his way. How dreary and uninteresting the whole trip seemed!

It was Bessie Thrope who discovered the country house for Elinor. Bessie declared as soon as she had heard their plans that she knew "just the place." The dwelling she had in mind was not far from the Thropes' new home. It stood on a hillside, well back from the road. Bessie pointed out that she and Elinor would be able to spend long afternoons together and that Sexton and the little boy could share play hours.

"I'd love to be near you, Aunt Bessie," Elinor said. Her aunt saw that the girl was fighting to keep back her tears.

"There's something very odd about all this," Bessie reported to Jim that evening as they sat alone on the porch. It was still light and the boys were playing tennis. Now and again a shout floated to them from the court.

"Um—!" said Jim. He twisted the cigar in his mouth and frowned.

"You see, Jim, I don't for a moment believe that things are—well, the way they seem. But Elinor does and that's the pitiable part of it. Barrett came in before I left this afternoon and he looks dreadful. I'm sure that seeing Elinor so unhappy hurts him worse than anything else about the affair. Her misery is more to him than his own."

"Well, you and I can understand that," Jim said slowly.

"Yes, we can. I almost hope he will go away soon and let her reason it all through."

"Maybe he will."

"Of course he may go. I'm not just sure."

"Do you remember," Bessie asked suddenly, "that talk about Marcia years ago? The time she went off to Europe in a great hurry. Remember? She took Annie, that Scotch maid who had served her mother for years—"

"Now that you speak of it I do remember," Jim conceded.

"How long ago was that, Jim?"

"Well, I'm not sure. Let's see—" Her husband paused, musing. "Must be close to 10 years, isn't it?" he questioned in turn.

"Yes, it is!" Bessie agreed grimly. "Oh, Jim—don't you see it all?" she went on eagerly.

Jim didn't. Excitedly she explained. "Oh, I know I'm right about it! I know I am!" Bessie exclaimed. "I knew all along Barrett wasn't that sort—!"

* * *

Two days later Barrett and Elinor drove out to see the house Bessie had described. It was a low, cozily-built dwelling set on the side of a hill and overlooking the sound. The house was larger than it seemed at first glance and everything about it appeared to be satisfactory.

"I do like it!" Elinor assured him in almost the old, warmly confiding way. Such moments always hurt Barrett. They were invariably brief and always followed by a return to even more adamant frigidity.

It was odd, he thought, that a girl who seemed so gentle, so constantly thoughtful of others, could be so stern. He had come to know this sternness and how it could bruise them both. Elinor was changed in other ways too and this worried him. She seemed listless and did not look at all well. He saw that she had lost weight. At meals she was never hungry. Higgins had noticed

RESTORATION

Each morning is a remade wonder—
Relighted skies to journey under,
Reopened buds unfolding beauty,
Reconsecration to old duty,
Relighted hopes for each frustration,
The golden hour of restoration.

Before our feet the path continues,
To travel now with strengthened sinews;
Before our eyes the way is clearer,
And all we ask a little nearer;
Whatever fault the past possesses,
Before us always lie successes.

Each morning life is rebeginning,
Our work ahead, the work, the winning
And they who will not let night fetter
Find ev'ry dawn a little better.
Though yesterday has been a burden,
Each morning is a bright new guerdon.

Then shall alone the skies relighten,
Shall then alone the world rebrighten?
Remember, with those new skies o'er you,
That progress always lies before you.
As surely as to all creation,
The morning is your restoration.

20 Years Ago

Ald. R. L. Cantlin, representative of the Second ward in the city council and for the past several years one of the central figures in civic affairs, has left Escanaba and has written to members of his family here that he does not intend to return.

Complete instructions have been received by Dr. William Fraser, senior lieutenant of Escanaba division State Naval Militia, for the division's annual cruise which is to open on Aug. 6.

The residence of Ex-Alderman Edward Kirkpatrick, at 220 North Sarah street, was completely destroyed by fire last night.

Eli Lavargne, of Detroit, who is visiting with relatives at Perkins, spent yesterday in the city with friends.

Members of a special committee named by President A. J. Young, of the Escanaba Business men's Association, met with flat tering success in soliciting funds on the first day of their drive. Only one contribution less than $25 was recorded and several up to the $100 mark were reported by the committee.

Deputy State Game Warden Herman Leisner has returned from Negaunee where with Warden John Rough he appeared in court against two defendants who were charged with having venison in their possession.

LIGHTNING HITS BERRY PICKERS

Boy and Dog Unconscious by Shock But Both Recover

Garden, Mich., July 31.—Donald Bedore, nine-year-old grandson of Mr. and Mrs. Joseph Bedore of Kenosha, Wis., is wearing the smile that won't come off.

With his father, grandparents, a brother, an uncle, and a pet dog, Donald is camping on the blueberry plains near Sency.

About six o'clock Sunday morning an electric storm, accompanied by a heavy downpour of rain, compelled the entire party to remain in their tent which was pitched under the friendly shade and protection of a beautiful pine tree. Donald was sitting on the ground and nearby was Jack with the dog in his lap. Other members of the party were sitting around, on the bed and other improvised seats. Almost simultaneously, there was a flash and a terrific bang. Jack fell backward with a groan, a heap upon the ground. The dog rolled off his lap, unconscious. All of the others were more or less affected. When they could collect their scattered senses, they found Donald and the dog still unconscious. First aid was rendered with some success after which the boy was taken to the nearest physician. It was over an hour before he regained consciousness. It was then learned that the hair on the crown of his head had been slightly singed. Similarly, the hair on certain part's of the dog's body had been singed. Jack sustained several slight bruises on one leg. Apart from a "washed out" feeling, all had completely recovered within twenty-four hours.

After the extent of the personal injuries had been ascertained, an examination of the place was made. It was found that the top of the trunk of the tree had first been struck. The current ran down to the ground, slightly charring the bark of the tree as it passed. It then followed the forked root under the tent. Its course was marked by a channel several inches deep which was plowed in the earth. A small suit case standing on the ground, was struck. Its lining was badly burned. The current punctured the cap of a small tube of liquid soldering which was in the case. The current passed through the tiny hole made and on its way out, blew a larger hole in the side of the tube. Near the tube was milady's outfit consisting of face powder, vanishing cream, a box of pills and we know not what else. The effect of the electricity upon the solder and near by articles was to weld them into one conglomerate piece. This "tangible evidence" is highly prized and will be given a place of prominence in their home when they return to Kenosha in the fall. Berry pickers who subsequently visited the camp were invited to "feel" the rough spots on the head of the boy and the body of the dog, indicating where the freakish current had passed. Unfortunately perhaps, these evidences cannot be carried back south since, before many days, new hair will take the place of that which was singed.

One of the first things which the head of the family did after tracing the course of the current was to "break camp" and move to what was considered to be a safer spot. The family expect to remain in the district for another month.

The senior Bedore was in the cyclone which struck Cedar Island Resort, Wis., five years ago. Mrs. Bedore has been more or less shocked by lightning on three previous occasions.

Mr. Bedore has a son James, whose home is at 609 N. 18th st. Escanaba. He and his party will visit in this city on their return to Kenosha in the fall.

OBSERVE BEAR

Garden, Mich., July 31.—While getting out logs for a chicken coop, Wednesday, Walter and Howard McNally observed a bear uncomfortably near the scene of their operations. Their presence did not seem to disturb its activities and its frequent appearance near their home leads to the belief that it is "Morganetta", the bear which was caught by Pete Foy and held in captivity at Fish Dam Park, until it made its escape from a collar which was too large for its emaciated neck after the winter's fast.

To the Editor:

I see by the paper where Russia's Five Year Plan has collapsed.

This is startling information because the Five Year Plan, according to a certain type of non-Russian engineer, collapsed five years ago.

Is it not strange that despite the regular reports of these Hoover engineers those crazy Russians in some very unscientific manner keep raising their standard of living, their industrial output, and despite the perpetual famine keeping increasing in number?

Wasn't it rather out of the ordinary for America's greatest construction engineer, Colonel Cooper, who directed Russian workers in building at Dnieprostroy the largest dam (900,000 horsepower) in the world, to say that Russian youth learn mechanical operations as quickly and as thoroughly as the youth of America? Isn't it odd that Col. Cooper should be speeding America's imminent recognition of Russia?

And doesn't it seem peculiar that the three richest capitalistic countries in the world, America, England and France, should be tripping over each other's legs this very week in their hurry to invest money and goods in this collapsed Five Year Plan?

Sincerely yours,
Robert Gessner.

McNitt Fund Money Being Distributed By Highway Dep't

Remittance of Highway funds owing to the county of Delta was forwarded yesterday to the county treasurer from the State Highway Department in the amount of $5,587.10. This remittance covers the amount due to the county as a refund, under the McNitt Act, and represents the third quarter of the total amount due to the county, under this Act, for the year 1933.

Because of the serious financial situation, created for the state by heavy real estate tax delinquencies of the past, delays have been experienced in forwarding to the several counties the monies due from the State Highway funds. The new State Highway Administration consequently found large arrearages in the accounts owing to the several county governments.

State Highway Commissioner Van Wagoner, in cooperation with the Auditor General and the State Treasurer, has been able to secure release of the third quarter of the McNitt money, as well as other sums, due to the counties, and these remittances have now been forwarded.

HIGHWAY DEP'T CHANGE MADE

Sharpensteen Ends 12 Years of Service; Sparks Succeeds

J. T. Sharpensteen, division highway engineer here for the last three years, yesterday concluded 12 years of service with the state highway department. Today, he is being succeeded by Ben Sparks of Powers, who was recently appointed as district engineer, with headquarters at Escanaba.

Sharpensteen

Mr. Sharpensteen has no plans for the immediate future, and for the time being will continue to reside in this city.

Born in Arkansas, he spent his early years also in Oklahoma and Texas. After graduation from high school, he enrolled for a course in the engineering department of Valparaiso university, receiving his degree in 1917. He enlisted in the U. S. army and was stationed at Camp Taylor at Louisville, Ky., first with the 309th Engineers for a period of eight months and later with the field artillery for about two years. While in Escanaba, Mr. Sharpensteen has been active in Legion affairs as a member of Cloverland Post No. 82 of the American Legion.

Worked With I. C. C.

Leaving the army in 1919 Mr. Sharpensteen entered the employ of the Interstate Commerce Commission and was engaged in railway valuation work in the northwest territory, with headquarters in Chicago. A year later, he joined the engineering department of Illinois Central Railway, but left that position several months later to enter highway department work at Virginia, Minn., later transferring to Duluth.

He entered the employ of the Michigan state highway department on April 19, 1921 as project engineer in the Port Huron district, with offices at Forester. During this period several assessment district projects on the Huron Shore road that had been started two or three years previously were completed. He also had charge of construction of Federal Aid road No. 51, sections A and B, and two or three Federal Aid bridges.

Came Here In 1930

On May 1, 1922, Mr. Sharpensteen was appointed assistant district engineers in the Port Huron district, and assigned to trunk line construction and state reward roads. On Jan. 1, 1924, he was assigned to Cadillac, as resident road engineer in the counties at Wexford, Osceola, Clare and Missaukee. Here he handled state trunk line construction and maintenance and state reward roads.

On Jan. 1, 1926, with reorganization of the districts throughout the state and divisions of construction and maintenance work, he became maintenance engineer of the 25 counties, comprising the Cadillac residency.

August 1, 1929, with enactment of the legislation creating a state board of aeronautics and providing participation in the building of airports by the state highway department, Mr. Sharpensteen was called in from Cadillac residency to act in the capacity of airport engineer for the department. Later in the year, he was appointed assistant maintenance engineer for the department, and on Sept. 1, 1930 came to Escanaba to succeed H. I. Davies, as division highway engineer for the upper peninsula territory.

DRAFTING WORK STOPPED HERE

Highway Office Curtailed; U. P. Road Projects Deferred

The first order looking to the disintegration of the Escanaba office of the state highway department has been received here with official notice from Lansing that the drafting room, heretofore conducted in connection with the division headquarters, is to be discontinued.

This department has in the past provided employment for from five to fifteen men, who with their families have resided in Escanaba.

Coincident with the receipt of orders looking to the discontinuance of the drafting department here, announcement has also been received from the headquarters of the department, that important road projects in Delta, Menominee and Alger counties, considered certain to receive action this summer, have been deferred. Among the projects placed in the deferred list is the completion of the pavement of US-41 in Menominee county, as well as the proposed paving of US-2 from Rapid River to Nahma Junction.

Cancellation of immediate plans for pavement construction on projects in Menominee, Delta and Schoolcraft counties, is accompanied by orders to rush to completion as quickly as possible two paving projects in Chippewa and Mackinac counties and one project in Marquette county, none of which is a part of either US-2 or US-41.

Copy of Letter

Following is a copy of the official letter from the Lansing office of the department cancelling immediate plans for proposed pavement construction in Menominee, Alger and Delta counties and announcing the early close of the drafting department at the Escanaba office:

July 24, 1933.

Mr. J. T. Sharpensteen,
Division Engineer.

Dear Mr. Sharpensteen: The design engineer here in Lansing was requested to furnish this office with a list of plans now under preparation in the Escanaba office.

We feel that this department will not be in a position to improve within the immediate future the following sections of road for which plans are under preparation or proposed for preparation:

Project 02-19 Deerton road west to county line (M-94, Alger county).

Project 021-16 County line north to Ford River (M-35, Delta county).

Project 021-28 Rapid River to Nahma Junction (US-2, Delta county).

Project 055-22 Hanson station to Ingalls relocation (US-41, Menominee county).

Project 055-8 Carney to Powers (US-41, Menominee county).

The above listed plans should be brought to a convenient stopping point and the survey notes and plans forwarded to the Lansing office for record.

Since there is a possibility that the following sections of road can be improved within the immediate future we would suggest that plans for the following projects be rushed to completion:

Project 017-29 West county line east toward Detour (Mackinac county).

Project 049-18 Cedarville east (Chippewa county).

Project 052-20 Baron Mine south (M-45, Marquette county).

Plans for Projects 017-29 and 049-18 should be prepared for surfacing with gravel.

Such employees as are not needed for the completion of these plans should be recommended for release as soon as their present work is completed. At this time in figuring the tentative plan of organization of the Escanaba office no consideration should be given the maintenance of a division drafting room. It is our intention at this time that all division office drafting rooms be eliminated.

In closing out the Escanaba drafting room all should be recommended for release as we do not at this time plan on making transfers from that office to the field. It is very possible that several of the draftsmen may be needed in the Lansing office, however, that consideration will be given here and the Escanaba office later informed relative to disposition of recommendations.

Accordingly you should not notify anyone that their services with the department are to be terminated until you are sure that the commissioner has mailed them a letter informing them of the termination of their services.

Yours very truly,
(Signed) V. B. STEINBAUGH,
Road Engineer.

Swanson To Open Service Station

Former Sheriff Elmer Swanson has purchased from the Delft Theatre Corporation the corner lot at 802 Ludington street, on which site he will erect a gasoline and oil service station.

Workmen started yesterday to wreck the two frame buildings, which have been standing there for about a half century. For many years, the Sauers confectionery shop was located in the corner buildings.

Emil Bergquist has been awarded the contract for the construction of the service station. It is expected that it will be open for business within a month.

Improvements Made At County Parks

Various improvements are now being made at the Delta county parks, R. P. Mason, county road engineer, stated yesterday.

The entrance to Pioneer Trail park is being beautified. At Fuller and Rapid River Falls parks, where flowing wells were sunk sometime ago, the grounds are also being improved. Miniature cascades are being built at the wells.

IT TAKES HEALTHY NERVES TO FLY AROUND THE WORLD ALONE!

● ABOVE—FOR THE FIRST TIME IN HISTORY a man has flown around the world alone! Sleepless . . . hungry . . . ignoring the perils of fog and ice . . . storms and forced landings . . . Wiley Post won the admiration of the whole world with his courage, his skill, and his marvelous physical endurance in flying around the world in 7 days, 18 hours, 49½ minutes. Here he is shown as he landed at Floyd Bennett Field.

● LEFT—RESTED AND SMILING after his daring flight, Wiley Post enjoys a Camel. "Smoking Camels as I have for so long," says Post, "I never worry about healthy nerves—and I'm a constant smoker, too."

● LEFT—"I CAN'T SPEAK as a record-breaking flyer. I'm a young married woman, and my home and club work keep me going every minute. Add to that the fact that I am naturally inclined to be the nervous type. I didn't start with Camels, but later switched to them because I found they are milder and have a delightful flavor. I smoke only Camels now because I have discovered that they allow me to smoke all I want—without upsetting my nerves."

How are Your Nerves?

Steady Smokers turn to Camels

In an exclusive interview WILEY POST says: "Circling the globe alone in the Winnie Mae was the toughest ordeal I've ever been through! A round-the-world flyer has to be in shape to stand the extremes of physical exhaustion. He has to be ready for any weather, any emergency. His job calls for nerves in perfect condition. Smoking Camels as I have for so long, I never worry about healthy nerves—and I'm a constant smoker, too. Everybody knows that Camels are made from more expensive tobaccos, and you can certainly tell it in the mildness and good taste of Camels, and the fact that Camels never jangle the nerves!"

○ ○ ○

Thousands of smokers have switched to Camels and found that they are better for steady smoking. *Your* nerves and *your* taste will confirm this. Begin today with Camels. Know that you are smoking a *milder* cigarette . . . and that steady smoking does not interfere with healthy nerves!

IT IS MORE FUN TO KNOW

Camels are made of finer, MORE EXPENSIVE tobaccos than any other popular brand. Leaf tobaccos for cigarettes can be bought from 5¢ a pound to $1.00 . . . but Camel pays the millions more that insure your enjoyment.

Today's Recipe

Huckleberry Muffins

1 cup fine, dry bread crumbs
¼ cup shortening
¼ cup sugar
1 egg, beaten
1 cup flour
3 tsps. baking powder
½ tsp. salt
1 cup milk
1 cup huckleberries

Cream the shortening, stir in sugar, and add beaten egg. Sift flour, baking powder and salt together, and add crumbs. Add to first mixture alternately with milk. Fold in huckleberries. Bake in greased muffin pans in moderate oven, 375 degrees F., 25 minutes.

When making egg custard pies, always heat the milk to the boiling point before mixing with the eggs. If this rule is followed, the undercrust will be crisp.

AMUSEMENTS

"The Nuisance" with Lee Tracy has been held over for another day at the Delft theatre and will be presented at both the afternoon and evening performances.

In this famous picture, Tracy plays an ambulance chasing lawyer whose trumped-up law suits are costing a street car company a fortune. A girl detective is set to trap him, but instead falls in love with him, and finally marries him so she will not have to testify against him.

This is rated as the funniest of Tracy's films. Following are some of the reviewers' comments:

"A howling, smashing, screaming success"—Photoplay Magazine.

"A-1 entertainment for any movie-goer"—Movie Mirror.

"A gem of a picture for everybody"—Modern Screen.

"Grain Race" Is Among New Books Now At Library

One of the new books at the Carnegie Public Library is "Grain Race," by Alan Villiers.

In 1932, it may be recalled, eight sailing ships laden with wheat sailed from Australia to England. The race was won by the ship Parma of which Mr. Villiers is part owner. The book is a beautiful volume illustrated with unusual photographs of sailing ships, masts and rigging.

The author has had experience as a newspaper reporter. In his books he writes thrillingly and accurately of the life which he describes. He is a native of Melbourne, Australia, and is about thirty years of age. At the age of fifteen he went to sea and spent two years on sailing vessels which made the voyage around the Horn. At one time he spent five months on a whaling ship in the Antarctic.

In 1928 he went to sea again, sailing on the Finnish ship in her race with the Swedish ship Beatrice around the Horn. His book, "Falmouth for Orders," is a result of that voyage. Another voyage was made in the Finnish full-rigger, "Grace Harwar" with a friend who wished to take motion pictures of sailing ships. His friend was killed, gales whipped the ship, food ran out—these experiences are vividly told in "By Way of Cape Horn."

In a forward to his latest book the author writes: "This voyage of the four-masted barque, 'Parma,' in the grain 'race' of the last of the sailing ships from Australia to the English channel completes the picture which I set out to give of the graceful wind ships before the last of them departed—a picture which was begun in 'Falmouth for Orders,' and continued in 'By Way of Cape Horn.'"

The following quotation is from a short review of "Falmouth for Orders," by William McFee, writer of sea tales, quoted by the Standard Catalog from the New Republic. In speaking of "Falmouth for Orders" he writes: "This book must be described as belonging to the highest type of marine literature. It will, in my opinion, take its place near Dana's 'Two Years Before the Mast.' By a lucky chance the author is not only an able seaman but an able writer."

The American Automobile Association reports that about 250,000 automobiles were stolen during 1932, and that about 90 per cent of these were recovered.

RECALLS OLD DAYS IN CITY

David Collins, Former Resident, R. A. Hale Rotary Speakers

Reminiscenses of the old days in Gladstone were given by Dave Collins, former resident, now of Hibbing, Minn., where he is attorney for the Oliver Mining company, before the Gladstone Rotary club at their regular luncheon meeting yesterday noon. R. A. Hale was also a speaker giving a short concise talk on his hobby.

Mr. Collins, when but a child, arrived in Gladstone on April 12, 1887 with his father. They settled at South Gladstone which, it was then believed would be the business district of the town-to-be. Choice of location for the docks had not yet been chosen by the Soo Line and the rails were not yet into Gladstone, the speaker said.

At that time what is now Gladstone was known only as Saunders Point and there were but two small buildings near the point. Blackwells was one of the stores at South Gladstone and a mill, later moved to the point and operated by Mason and Davis, was erected.

What is now developed business and residential property was at that time covered with virgin timber, Mr. Collins stated, and he well remembers the old Bay Siding trail, which came down the bluff and out through the woods to the point, over which all overland traffic came. He recalled the platting and surveying of the various additions here, and the first locomotives to come into the "future Chicago."

Locomotive No. 20 with Michael Harris at the throttle was the engine drawing the supply train, the speaker said, and No. 22 with the late Jerry Springer as engineer was the first passenger locomotive.

Late in the fall of '87 Gladstone was incorporated as a village and business had begun to boom. There was plenty of activity at the docks, the Lotus made the village a regular point of call, and many sailing vessels and traders docked here. Sailing ships were usually towed up the bay and dawn by tugs.

A Senator Washburn, directly connected to the Washburns of New England and interested in the Washburn Crosby Milling company, was intensely interested in the founding and development of Gladstone and was the sender of the telegram to Escanaba which told them to "unfurl the Gladstone banner to the breeze." At that time navigation of the straits was a difficult matter and it was believed cheaper to ship by rail here and transfer to boat than to make the entire trip by water.

Mr. Hale, who preceded Mr. Collins on the program, stated that his hobby is the outdoors, and that he likes trout fishing, various kinds of hunting and the many winter sports. Trout fishing is his main hobby, however, and he specializes in luring the fish by use of flies. An advocate and enthusiast of dry fly fishing, Mr. Hale explained the nature of both dry and wet fly use, and how one fished depending on the type of lure being used.

this, noticed also that Mr. Barrett seemed equally strained and had scarcely any appetite.

Now Barrett said dully, "It is a nice house." Without meaning to, he moved toward her. He became aware of this when Elinor casually and, as if accidentally, moved to widen the space between them. The lines of his face hardened.

"You couldn't be so cruel," he thought. "If you knew how it hurts me."

Aloud he said, "Do you think you want to live here?"

"It will do very well," Elinor answered.

"Then I'll see about the lease tomorrow," he promised. "You'll be able to move in whenever you like."

"I'd like to come soon. I think with Bessie's help I can get everything that's necessary ordered within a week."

He realized that would mean that if he made the trip to South America he would have a few weeks alone in the New York house. A few weeks during which he, in his room would seem to hear her moving in hers.

"Don't you think after all," he said abruptly (for it was not easy to speak of Gerald), "that I'd best pack the youngster off to some summer camp?"

"Don't you think," she asked hotly in turn, "that it's only decent—not to hide him?"

HOWARD ALLEN DIES YESTERDAY

City Pioneer Succumbs Suddenly to Heart Attack

Howard E. Allen, 67, one of the early pioneer residents of this city passed away suddenly yesterday morning at three o'clock at the home of his daughter, Mrs. Jas. Troyer, 233 North Fifth street, as the result of a heart attack. Mr. Allen was taken with an attack of asthma Sunday morning and toward evening felt so much improv that he spoke of resuming his duties at the Ossawinamakee the following morning. Later in the evening, however, his condition became critical and he succumbed to heart failure.

The deceased, one of the city's familiar figures, was respected by all who knew him and his death came as a deep shock to the community.

Born near Addison, New York, on August 6, 1865, Mr. Allen came to this city while still a young man. For many years he drove a team for the Chicago Lumber company. For upwards of 25 years he was employed as caretaker and janitor for the Ossawinamakee hotel in which capacity he was still active until taken ill Sunday morning. He was an active member of the local order of the Woodmen of the World.

Survivors of the deceased are a daughter, Mrs. James Troyer of this city; and a sister, Mrs. Thomas McCullough, of Pontiac, Mich.

Funeral services will be held from the Troyer residence, Wednesday afternoon at 2:30 o'clock with Rev. S. T. Bottrell, pastor of the First Methodist church, officiating. The funeral will be in charge of the Woodmen of the World. Interment will take place in Lakeview cemetery under the direction of Gunnarson & Kefauver, local morticians. The remains will be taken to the Troyer home this afternoon.

3,000 ATTEND LEGION PICNIC

Outing Attracts One of Biggest Gatherings in City's History

All Manistique and Schoolcraft county took leave of troubles and cares Sunday in attending the Legion community picnic at Arrowhead Inn which proved to be the greatest outing ever held in the city's history. It is estimated that well over 3,000 persons watched the festivities through a scorching day which caused a run on all liquid refreshments.

From the time the merrymaking started in the morning with the pie and banana eating contests until the last strains of music subsided at the jitney dance at midnight, there were plenty of activities to keep the huge crowd moving every minute.

At 12:30 o'clock a fine parade, headed by Dr. A. R. Tucker on horseback, and followed by the brilliant Escanaba drum and bugle corps, proceeded through the business section of the city as far as the Van Dyck corner on the westside from where the procession disbanded to go to the picnic grounds. Units in the parade included a group of children in charge of members of the American Legion Auxiliary, the Woodmen of the World band, American Legion float, a demonstration of new cars, and a large number of cars drawing up the rear.

Principal attractions at the outing were the platform acts, a splendid drill by the Escanaba drum and bugle corps, boxing exhibitions, stunt flying by Al Ranguette, of Nahma, motor boat races, an exhibition of log rolling by William Girard, world's champion birler, horeshoe contests, baseball and dancing.

Fine Platform Acts

Fine platform specialty numbers were given by Mrs. Paul Gero in a "Rube" dance tap number; acrobatic stunts by the Wygal sisters and Gladys Gilbert; dance numbers by Phil Bruce of the Escanaba drum and bugle corps, and Ben Neganquaam, local Indian, and L. A. Danielson presented an interesting skit in Scandinavian dialect. All of the acts received hearty applause.

One of the most interesting features was the log rolling exhibition performed by William Girard. Crowds lined the shore to see him do his remarkable balancing acts which were climaxed by his mounting a chair placed upon the log and by passing his body through a hoop while maintaining a perilous equilibrium on the floating tree trunk.

Ranguette thrilled the huge crowd with his daredevil sky capers, neatly performing barrel rolls, loop the loops, and flying upside down for long periods of time.

Joe and Roy Anderson put on a pretty exhibition bout, the former also stepping through several rounds against "Tut" Arrowood. Joe, a Gladstone boy, was the winner of the Green Bay District Golden Gloves tourney. A comedy bout was put on by Albert Multhaupt and Kid Generou.

The Old Timers demonstrated that they still know something about how the national pastime, baseball, is played, when they trimmed the Manistique Dragoons in an abbreviated five-inning contest. Bob Harbin hurled masterful ball for the Old Timers, striking out eleven and allowing but three hits.

Chuck O'Neill, former Gould City hurler, permitted the Old Timers to score two runs in the first inning, after which he was relieved by Chuck LaBrasseur, who held the winners scoreless until the fifth when the latter broke a two-two tie when Harbin clouted a double to left.

In the horseshoe contests, Ed Gray and Jack Quick defeated Tony Bucsh and Harvey Quick, Sonny Oden sped to victory in the motor boat race.

Berlin Makes Raids Against Communists

Berlin, July 29 (AP)—In an effort to put an end to secret communist activities, police in Berlin and various other German cities today made surprise raids, resulting in about 250 arrests, including a number of women.

Police said they had discovered the Communist party was secretly reorganized in many places and that leaders kept in touch by couriers.

At Hamburg 93 Communist leaders were arrested and plans for reorganization of the party in northern Germany were alleged to have been discovered.

In similar raids 100 were seized at Leipzig, 23 at Etadthagen and 14 at Breslau. In these cities police said that they found quantities of weapons, explosives and subversive material.

Working Shorter Hours

Bessemer — Regular county road crews are now working eight hours daily instead of nine, following President Roosevelt's suggestion that shorter working hours be instituted in all businesses. The change became effective this week. RFC laborers dropped the 9-hour day June 1, according to Wilbur McNamara, county employment agent. They work eight hours.

ORGANIZES U. P. CLEANERS ASS'N

Crisp, of Soo, Heads New Body; Adopt Industrial Code

Organization of the Upper Peninsula Dyers' & Cleaners' association as a branch of the state association was made here Sunday at a meeting at the Ossawinamakee hotel in which twenty employers representing nearly every upper peninsula city were in attendance. Heading the new organization is E. T. Crisp, of Sault Ste. Marie, with Cy Williams, Marquette, vice president; and J. S. Pingatore, Sault Ste. Marie, secretary and treasurer.

The new code formulated by the upper peninsula association provides for a 42-hour week and a minimum wage of $12 per week. It is understood that the minimum wage applies only to unskilled labor. Members of the organization will put the new code into immediate effect and will follow it until changes, if any, are made by the national industrial recovery commission.

In as much as costs and prices vary to a great extent in the upper and lower peninsulas, two separate codes will be sent to Washington for approval. The code adopted by the upper peninsula dyers and cleaners, will govern the entire upper peninsula as well as northerly cities in the lower peninsula.

Local Department Stores Adopt NRC Working Schedule

In conformance with the spirit of the National Industrial Recovery Act, providing for a reduction in hours of labor, three of Manistique's department stores voluntarily decided to go on a 52-hour per week basis beginning today. Employers will also observe the 35 cents per hour minimum wage requirement.

The Peoples Store, J. C. Penney, Co., and Lauermans hereafter will work eight hours on all week days except Saturday, opening at 9 a. m. and closing at 5 p. m. Hours for Saturdays are 9 a. m. to 9 p. m. The working schedule for any single employee will be such that no one will work more than forty hours per week.

Other business houses in the city are also planning to go on a reduced schedule of working hours today.

BY JOHN L. COOLEY
(Associated Press Financial Writer)

New York, July 31 (AP)—Financial markets bogged down today. Trading on most exchanges was dull, but buyers held aloof and the month ended with speculative positions in sharp contrast to their status at its beginning.

Grains lost the limits allowable under present regulations. Stocks, after a somewhat hesitant start, skidded easily under light offerings, closing with numerous declines of 2 to 4 points and more. Cotton, sympathizing with other markets, slumped better than $2 a bale. Bonds were heavy.

Wall Street's expectations of a "secondary reaction" following last week's recovery appeared to have been realized.

Further liquidation of old accounts as well as short selling doubtless accounted for much of the mild pressure, to which leading stocks offered mediocre resistance.

U. S. Steel dipped under 50 for an extreme loss of approximately 5 points, but cut its loss to 2 3-8 net. This leader was fairly typical of other "pivotal" issues. American Telephone ended the day 2 5-8 lower, whereas it had been off more than 4.

Seasonal reaction in the steel industry appears more definitely established after the long advance beyond the time that usually marks this industry's peak. Accumulations of orders at mills are substantial, but August may well witness some acceleration of the decline in operating percentages. Precedent, of course, calls for another upturn in the autumn.

Scratching another month off the calendar, Wall Street finds that neither currency nor credit inflation has made an appearance, suggesting that the business situation has become the most important factor marketwise. Workings of the recovery act and progress of the wage-lifting drive are expected to be important milestones on the financial road during the summer and fall.

DOLLAR ERRATIC

London, July 31 (AP)—The United States dollar moved erratically in the London market today and closed at $4.54½, two cents higher than the opening and four cents down from Saturday's final quotation.

The dollar at one time fell as low as $4.64 to the pound in trading which carried it over a range of nearly 12 cents. Slackening demand brought the downward swing and the later rally was based on improved buying.

Bank Releases Funds

Iron River—The sum of $17,353 will be released from the moratorium fund of the reorganized Miners' State bank Tuesday morning, it is announced by the board of directors.

The entire payment is made in advance of the date fixed by the depositors' agreement, a portion being payable November 7, 1933, and the remainder November 7, 1934.

The release is made possible by improved conditions since the bank was reorganized, permitting liquidation of its moratorium assets in much shorter time than previously anticipated.

The release means the distribution of $6,682 to the various governmental units in the county, including the schools. The balance will go to other depositors.

NOTICE OF MORTGAGE SALE

Whereas, Martin Rotman and Anna Rotman, his wife, of the City of Escanaba, in the County of Delta and State of Michigan, made and executed a certain mortgage, bearing date the twenty-second day of April, A. D. 1925, to John Arbeiter of the same place of residence, which was recorded in the office of the Register of Deeds on the twenty-third day of April, A. D. 1925, at 9:40 o'clock in the forenoon, in Liber 22 of mortgages, on page 296 thereof;

AND WHEREAS, the amount claimed to be due on said mortgage is the sum of Four Hundred Fifty-nine Dollars and Eighty-nine cents ($459.89), including principal and interest thereon, and no suit or proceeding has been instituted at law to recover the debt now secured thereby, or any part thereof;

AND WHEREAS, default has been made in the payment of the money secured by said mortgage, whereby the power of sale contained therein has become operative;

Now, therefore, notice is hereby given, that by virtue of said power of sale, and in pursuance thereof, and of the statute in such case made and provided, the said mortgage will be foreclosed by sale of the mortgaged premises, at public vendue, to the highest bidder, at the West front door of the Court House, at the City of Escanaba, in said County, that being the place of holding the Circuit Court within said County, on Thursday, the seventh day of September, A. D. 1933, at nine o'clock in the forenoon; the description of said lands and premises described in said mortgage is as follows, to wit:

Lot three (3), of block thirty-eight (38) of the I. Stephenson Company's Second Addition to North Escanaba, Michigan.

Dated at Escanaba, Michigan, June 15, 1933.

WALL STREET BRIEFS

New York, July 31 (AP)—Insuranshares Certificates, Inc., reports that its liquidating value June 30 was $4.18 a share against $2.03 on June 30, 1932.

Interest due August 1 on Republic of Uruguay 8 percent bonds of 1946 will be transferred at the current rate of exchange, which will mean roughly $25 on each $40 coupon, the fiscal agents for the Republic announced today. Whether surrendered coupons will be cancelled as paid in full or stamped to signify accrual unpaid face amount has not yet been determined, it was stated.

Today's gold statement of the New York Federal Reserve Bank showed no changes.

BY VICTOR EUBANK,
(Associated Press Financial Writer)

New York, July 31 (AP)—The bond market turned soft today, apparently in sympathy with stocks, and most categories showed losses of 1 to 3 or more points despite a late rally.

With the regular trading schedule of 10 a. m. to 3 p. m. resumed, following last week's abbreviated sessions, the activity was not pronounced. Sales totaled $13,661,000, par value, and the average for 60 domestic corporate loans dropped four-tenths of a point.

While the financial district apparently was favorably disposed toward the government's terms for August financing, involving some $1,000,000,000, treasury issues and Liberty bonds lost 1-32nd to 14-32nds of a point. The treasuries were more active than usual.

Secondary railroad liens were subjected to pressure throughout, declines of 1 to around 6 points being suffered by maturities of Alleghany Corp., Chesapeake Corp., Chicago & North Western, St. Paul, Rock Island, Missouri Pacific and N. Y. Central.

The industrials and utilities displayed some resistance and the better grade loans of these groups maintained a fairly steady position.

Foreign government obligations were irregular. Some Argentine bonds recovered 2 to 4 points and French 7s and 7½s were up more than a point. Swiss 5½s lost 2 1-8 points and British 5½s eased in heavy trading.

CHICAGO GRAIN
Chicago, July 31—Complete collapse overtook grain markets today for the third day in succession, prices going down the extreme limit allowed, and later remaining prostrate.
Definite fixing of 3 to 5 cent boundaries for daily market fluctuations either up or down appeared to operate at least temporarily as a means of unsettling instead of reestablishing confidence of traders. Some leading grain specialists said the limits which had been adopted by the various American exchanges in connection with government efforts at Washington had soured holders of future delivery contracts, and had disturbed prospective new buyers. More stringent requirements as to financial margins needed were also a factor.
During much of the day, all grain business was virtually at a standstill, with receivers of cereals unwilling to accept rural offerings because there was practically no futures market available in which purchases of immediate delivery grains could be "hedged." By "hedging" is meant a trade method equivalent to insurance for operators who wish to avoid a speculative risk whether down or up.
Wheat closed almost lifeless, 4 7-8 to 5 cents under Saturday's finish, corn 4 cents down, oats 3 cents off, and provisions at 12 to 50 cents decline.
On the other hand, the bulk of the day's news directly relating to grain was of a character which under usual conditions would irresistibly spell higher prices. This was the case in particular to August monthly unofficial domestic crop summaries looked for tomorrow and expected to show the smallest aggregate yield of wheat and oats since 1893.
Corn and oats preceded wheat and other grains in falling to bottommost levels permitted. The corn visible supply increased 2,859,000 bushels.
Provisions gave way with grains and as a result of packers' selling.

Spitzbergen's tallest trees are about six inches in height.

Bids Are Scarce On Curb Market; Prices Decline

BY BERNARD S. O'HARA
(Associated Press Financial Writer)

New York, July 31 (AP)—The curb market followed the big board today on a sharp downward revision of prices. Losses which ranged 1 to around 6 points, represented scarcity of bids more than volume of selling. Trading was comparatively dull and transactions for the five hour session, which was resumed today, approximated 437,000 shares compared with 270,000 for the three hour market last Friday.
Aluminum Company of America was off 6 points and closed but slightly above the low. Dow Chemical and General Tire & Rubber each lost around 6, while Consolidated Mining dropped 12 on a small transfer.
Losses ranged over a wide area and embraced utilities, oils and mining shares. "Wet" issues, however, staged a late rally which erased most of their initial losses of 1 to more than 3 points. Hiram Walker, off nearly 4 points at one time, showed but a fractional recession at the close.
Losses of 1½ to around 4 points were shown in Electric Bond & Share, American Light & Traction, Pan American Airways, Newmont, Lake Shore Mines, Humble Oil, Gulf, Standard Oil of Indiana and Parker Rust Proof.

Forest Army Goes to Work

The president asked and got permission from Congress to recruit an army of 275,000 unemployed men for work in the national forests to help relieve unemployment.

The president was authorized to provide the men with food, clothing, and medical attention, and cash as he deemed advisable. The army was given the job of handling the "Conservation corps."

The president had young men, selected whose families were recei

Grand Jury Probes Race Horse Doping Charge

PARK OFFICIALS ARE QUESTIONED

Federal Narcotic Act Indictments Due in Few Days

BY CHARLES DUNKLEY
(Associated Press Sports Writer)

Chicago, July 31 (AP)—A federal grand jury heard and weighed the government's startling charge of wholesale "doping" of race horses today as 22 witnesses, among them trainers, stable owners, and officials of two of Chicago's most important parks, paraded before the witness stand.

None of the evidence given the jury was revealed but Leslie E. Salter, assistant attorney general in charge of investigation, said he was confident indictments on charges of vioalting the Harrison narcotic act would be forthcoming within a few days.

Simultaneously with the grand jury hearing, it was announced that Ralph H. Oyler, who led a squad of federal agents in a raid at Arlington Park last Friday and arrested seven horse handlers, would be assigned to track down other suspects in race horse "doping." It was emphasized, however, that the government's only interest was enforcement of the law forbidding illegal possession and transportation of narcotics and that any disciplinary action from a turf angle would have to come from racing officials themselves.

Four of the seven men arrested at Arlington Park were questioned by the federal grand jury as it hurried through the examinations. They were Ivan Parke, former noted jockey; Dr. Edward Nelson Southard, a veterinarian from Louisville, Ky.; Charles Mitchell and William Payne, stable boys during the rich Aarlington meeting.

Southard in a statement given in Salter's office, denied the allegations of governmental agents that they had found a hypodermic needle in the neck of Louie Dear, a horse running under the colors of Jack Howard, after a race at Arlington Park last Friday which the animal lost as a favorite. He said he had been treating the horse with a non-narcotic solution for more than a year to relieve a painful condition in the animal's left foreleg.

Howard, also called before the grand jury, backed up Dr. Southard's statement and said governmental agents apparently witnessed the "harmless injection" Friday.

Shields And Parker Lead Southhampton

Southampton, N. Y., July 31 (AP)—Frank Shields, seeded second, and Frankie Parker, No. 4, led the field into the second round in the 43rd Southampton tennis tournament at the Meadow club today as a pair of upsets marked the opening day's play.

Shields eliminated Richard Covington, of Asheville, N. C., in leisurely fashion, 6-4, 6-3, as his service won games but his backhand developed weaknesses. Parker met a hard hitting foe in Edward W. Burns, of Brooklyn, and was forced to play his best to win, 6-3, 6-3.

Two seeded stars tumbled from the tournament as Robert Grant, of Chattanooga, defeated J. Gilbert Hall, No. 6, 9-7, 6-8, 6-4, and Richard T. Murphy, Hamilton collegian, eliminated Dr. Eugene McCauliff, No. 8, 6-3, 8-6. Bryan's victory was bitterly fought and was the best of the day, lasting three hours.

Sidney B. Wood, Jr., defending champion and top seeded, defeated Henry Culley, of Santa Barbara, Calif., 6-0, 6-2.

Net Operating Railway Income Up 370 Percent

New York, July 31 (AP)—On the basis of June returns so far available, it is expected that class one railroads will have aggregate net operating income for that month exceeding the same month last year by about 370 percent and the 1931 month by nearly 20 percent.

The June net of all the carriers is estimated at $60,500,000 against $12,652,515 in the like 1932 period. Gross revenues are figured at about $280,000,000 against $246,236,756 in June, 1932, and $369,810,344 in the same month in 1931.

The estimates are based on the reports of 72 carriers of which only nine failed to register an increase in total operating revenues in June over the same month in 1932. Only six of the group had lower net operating income.

Improvement in the June trend over that of the previous month was emphasized by the fact that in the latter period 24 roads of the group showed a decline in gross below the comparable 1932 month, while nine failed to record gains in the net operating income.

The substantial gains in net operating income in June lifted revenues for the first half year well above the figures for the corresponding period of last year. Taking the actual returns for the first five months and estimating the June aggregate, the indicated net stands at about $134,900,000 as against $112,328,375 for the six months ended June 30, 1932.

Gopher Halfback Regains Health

Minneapolis, July 31. (AP)—Myron Ubl, the University of Minnesota's young half back whose life at one time was despaired of following a chest injury, has come back.

Tanned and rugged from weeks of outdoor work in northern Minnesota woods, he reported to Coach Bernie Bierman today for a short interview and was sent back to the North woods with a sheaf of diagrammed football plays.

Ubl said he weighed 178 pounds, two more than before his injury on the gridiron practice field last fall which sent him to the hospital for many months. There still is a small tube in his side to drain fluid from the injury, but this didn't worry Bill.

"It's a cinch they'll let me play this fall," he said, relating how a brace will be made to protect his side. "The doctor said there wasn't any doubt about it."

Bout Is Offered Champ McLarnin

Boston, July 31. (AP)—Johnny Buckley, Boston boxing manager, today wired Champion Jimmy McLarnin, now in Los Angeles, a $30,000 guarantee to defend his welterweight title against Andy Callahan of Lawrence, in this city in September.

Buckley said the bout, if McLarnin accepts, would head a Boston newspaper's Christmas basket fund.

DONATIONS HELP BROWNS TO WIN

Debut for Hornsby Made 12 to 8 Triumph Over Indians

St. Louis, July 31 (AP)—The St. Louis Browns took three hits and with a donation of seven bases on balls, stretched them into eight runs, in the seventh inning for a 12 to 8 victory over the Cleveland Indians here today.

This unusual exhibition was a feature of the St. Louis debut of Rogers Hornsby as the new manager of the Browns.

The Indians led St. Louis 8 to 4 in the first half of the seventh West tripled, Campbell and Levey singled and the Cleveland pitchers issued seven passes, giving Hornsby's men a four run margin which they held to the end.

Cissell, Hale and Kamm hit homers.

Munising Wallops Newberry, 23 to 5

Munising, July 31 (Special)—Newberry's baseball club proved to be no match for the locals Sunday and the home team waltzed away with a 23-5 victory. The Bonds lost no time in getting under way and as the game went on and the scores piled up four Newberry hurlers were rushed into the breach in an effort to stem the tide. Nietek who occupied the slab for the Karbonites pitched his usual cool and heady game, allowing eight hits and striking out nine batsmen.

The Munising team will journey to Negaunee on Wednesday to play their second game with Goldsworthy's proteges. The Rovers copped an eleven inning battle from the Bonds 5 to 4 in the season's opener.

Employment for nearly 600,000 persons is normally provided by the railroads of Great Britain.

"Six Months to Live" Sonnenbergs Divorce

Los Angeles, July 31 (AP)—Gus Sonnenberg, the wrestler, is going to help his wife, Judith Allen of the movies, get a divorce, and is afraid it is going to be "the last big act of my life."

"The doctors have told me I've only six months to live," he explained gloomily. "I'm through with the ring. I've got a pulse rate of 140 right now and that means curtains. I've really got a broken heart."

Sonnenberg said he would fly to Reno tomorrow to establish residence; remain there six months and then let his wife sue for divorce.

"She's a great little girl and she's got her career ahead of her.

"Down deep in my heart I know she loves me—and I love her."

Sonnenberg's heart ailment—auricular flutter—sent him to a hospital after a body slamming bout with Jim Browning.

The actress said she was happy to hear her husband plans to carry out his part of their agreement to go to Reno.

"I have offered to share his expense of going if he would let me obtain the divorce, but he would not listen to that," she said.

"It is my understanding that his heart ailment will go away. I can't believe that he is through wrestling or that his life will be shortened by his illness. I am terribly sorry about it all, but there seems to be nothing else for us to do."

TIGERS LOSING PRIZE PITCHER

Rowe's Shoulder Injury Puts Him Out for Month or More

Detroit, July 31 (AP)—The Detroit Tigers are going to lose the services of Lynwood (Schoolboy) Rowe, their prize pitching find of the spring season.

Recurrence of a shoulder injury that he suffered at Philadelphia July 15 has forced the schoolboy definitely out of the lineup for an indefinite period that Manager Bucky Harris said might be as long as a month.

It may be even longer, for Trainer Denny Carroll admits the ailment has him puzzled and Harris sadly pronounced the condition of Rowe's throwing arm as "pretty bad."

A quick throw to first brought on the trouble. Rowe continued pitching against the A's but finally had to be removed. A few days later he defeated Philadelphia, although he was hit fairly freely, but the trouble has bobbed up again.

It was Trainer Carroll who found and corrected an arm ailment that threatened to end Charley Gehringer's playing days a few years ago and the Tiger management is confident he will find what is wrong with Rowe.

Fred Marberry is the overnight hurling choice for tomorrow's series opener with the Chicago White Sox, one of the few clubs the Tigers have been able to beat consistently this year. A sweep of the series might catapult the Tigers from fifth into third place in the league standings, for they are only a game behind the Athletics and Cleveland Indians, who are tied for third.

Burleigh Grimes Back With Cards

St. Louis, July 31 (AP)—Burleigh Grimes, whose brilliant pitching was largely responsible for the St. Louis Cardinals winning the world series in 1931, will again join the Redbirds, Branch Rickey, vice president of the club, announced tonight.

The last of the National League spitball flingers was released unconditionally by the Chicago Cubs here yesterday, signed a Cardinal contract today, and will report to Manager Frankie Frisch in Pittsburgh Wednesday.

"I still believe that if I get enough work I'll be able to pitch winning baseball," Grimes said. "I'm in good condition and will be ready for work when I report to Frisch."

Grimes, who has been with every club in the National League except Cincinnati and Philadelphia since "coming up" in 1915, was traded to Chicago after the 1931 series. With the Cubs he has been used mainly as a relief hurler.

Schaeffer Ball Club Bow To Powers On Sunday, Score, 13-10

Schaffer, July 30—Schaffer lost to Powers today 13 to 10 in a loosely played ball game. "Smoky" Trudell pitched good ball for Schaffer, keeping the hits well scattered, and retired eleven by the strikeout route, but some wobbly support in the pinches proved to be the deciding factor.

The score: R H E

Schaffer	101 300 032—10	10	8
Powers	031 002 403—13	14	9

Rock Spartans Win From Garth By 11-7

Rock, Mich., July 31—The Rock Spartans defeated the Garth C. C. C. baseball team by an 11-7 score in an interesting game at the local field Sunday afternoon.

The Spartans scored early and their 16 hits off the pitching of Murray, Forester hurler, were coined into 11 runs. The locals were especially effective at the plate with men on the bases.

The Foresters, despite a heavy score against them during the first six innings, did some merry clouting in the seventh and scored six runs. They did not fare so well in other innings, however, for they had twelve men stranded on bases. As a fielding team, they lived up to their reputation and they showed some of the flashiest baseball seen on the local field.

Viitala and Larson, of Rock, led their team with three hits apiece while Clark of the C. C. C. outfit got four out of five. Murray struck out four Spartans, while Sayen and Neveau, Rock hurlers, struck out six between the two.

The score: R H E

Rock	103 320 11x—11	16	4

Batteries: Murray and Allen; Sayen, Neveau and Burdick.

Newcomer Strong On Ringers, Wins Horseshoe Title

Chicago, July 31 (AP)—Ted Allen of Alhambra, Calif., playing in the event for the first time, today won the national horseshoe pitching championship, dethroning Blaim Nunamaker, East Cleveland, O., winner of the past four tournaments.

Allen won 20 games and lost three, tying with C. C. Davis of Kansas City, a five time holder of the championship. In the pitch off the California thrower defeated Davis twice, 50 to 38, and 50 to 24. Allen also spoiled Nunamaker's chances for the title, defeating the Ohioan, 50 to 23, in the final game of the regular schedule.

Nunmaker took third place. Allen set a new percentage record for ringers, slipping over an average of 73.5 per cent of his shots. The old record was 69.5.

Davis, playing against G. C. Hawley, Bridgeport, O., set another new mark of eleven consecutive double ringers.

Singer Of Blues To Wed Levinsky

Chicago, July 31 (AP)—King Levinsky, the fighter, has been matched for matrimony, his sister-manager, Lena, said today.

Though Lena's in favor of it, she said she hoped his marriage to Frances Faye would not take place until he gets another match out of the way September 8. The latter is with Jack Sharkey.

"I don't want King eloping until he beats up this Sharkey fellow," was the way Lena phrased it but she said Frances was "one nice girl."

She's a blues singer, Lena said.

YANK-SENATOR SERIES EVENED

Champs Take Last Game 13 to 9; Ruth Aids Bat Barrage

BY E. G. VOSBURGH
(Associated Press Staff Writer)

Washington, July 31 (AP)—The champion Yankees collected 18 assorted hits off three Washington pitchers and trimmed the league leading Senators, 13 to 9, today to get an even break in their four game series and head back to New York just a game out of first place.

Babe Ruth's still formidable bat played an important part in the old fashioned Yankee offensive that reached its climax in a seven run barrage in the fourth. As on yesterday, Washington errors contributed to the home team's downfall.

Lefty Gomez joined Russ Van Atta and Herb Pennock as the only Yankee hurlers to beat the Senators this year, turning the trick after undergoing a three run, three-hit attack in the first frame.

Walter Stewart, Washington southpaw, was slammed out of the box in the disastrous fourth when the Yankees bunched six hits, including a triple by Ruth with the bases full.

The Senators chose this inning to commit their two errors. First Kuhel dropped Lazzeri's easy pop foul, after which Tony promptly singled, scoring Chapman who had opened with a double. After two more singles that filled the bases, Cronin's fumble of Combs' grounder allowed Lazzeri to score. Joe Sewell singled for another run and Stewart went to the showers.

On the first ball pitched by Burke, Ruth lofted a three-bagger to deep center which drove in three more runs. The Babe scored later when Gehrig was thrown out.

Besides his triple, Ruth rapped out two doubles before retiring from the burning heat after seven innings.

A ladies day crowd of 15,000 found opportunities for cheering the home team when Dave Harris parked two home runs in the left field bleachers and when a ninth inning uprising lead by substitutes Boken, Berg, Bolton, Kerr and Rice scored four runs on Wiley Moore, who replaced Gomez for the final frame. Harris, playing right field for Goslin also made a double in his day at bat.

McAfee, who relieved Burke in the fifth, was hard hit like his predecessors.

READING BOUGHT BY BOSTON SOX

Step Is Taken to Build Up Material for Going Team

BY BILL KING

Boston, July 31 (AP)—The second step in the rebuilding of the Boston Red Sox, which became the sole aim of President Tom Yawkey and General Manager Eddie Collins when they purchased the club from Bob Quinn last February, was taken today when the control of the Reading franchise in the New York-Pennsylvania league passed into their hands.

Quinn was again on the selling end of the transaction, which enabled him to retire from baseball for the season, a move that was strongly advised by his physician. He planned, however, to return next year in an executive position with some minor league club.

"We were eager to take Reading off Bob Quinn's hands," Collins said today before departing to inspect his club's new property. "The Sox sent several likely looking youngsters there early in the season and I am going to have another look at them. Quinn has highly praised Justin McLaughlin, a young pitcher who went south with us, and George Stumpf, an outfielder we loaned for seasoning.

"Taking over Reading as a farm is all right as a starter, but the Red Sox need contacts with the double-A leagues. I think a youngster should get at least a year's experience in the International, American association or Pacific Coast league before getting into the majors."

Collins, however, does not contemplate any early purchase of a club in those circuits. Just now he hopes to take his youngsters for development. But farms are an important part of his rebuilding plans. Eventually the Red Sox are going to have several of them, but not a string, for Collins disproves of the "chain store system."

The sensational gait the Sox have been traveling of late, winning nine of their last 11 games, has vindicated Collins' initial plans.

"We knew we had to get seasoned players to plug up the team's weak spots," he said, "and we bought them. Now we have a fighting team. We have lost the defeatist complex and all of the boys are out there making the old college try.

"That was only the first step. It was successful but we've got to keep on improving. We had to rush things before, but now we can take things a bit easier and carefully comb the baseball market for promising material."

British Net Star Captures Singles

East Hampton, N. Y., July 31 (AP)—Betty Nuthall, British Wightman cup star, captured the singles championship of the eighth annual Eastsome invitation tennis tournament today, defeating Alice Marble, young Sacramento, Calif., player, 5-7, 6-3, 6-0, in the final round.

England also shared in the doubles as Margaret Scriven, another British Wightman cup player, teamed up with Elizabeth Ryan, veteran Californian who has made her home in England for many years, to defeat Miss Marble and Mrs. Helen Wills Moody, 6-2, 9-7.

Miss Marble, seeded first among the American players in singles, fought a courageous battle against Miss Nuthall, but it was her third match on one of the hottest days of the year and she faded quickly after she had smashed through to win the first set.

Miss Marble teamed with Mrs. Moody to beat Miss Nuthall and Mary Heeley of England in the doubles semi-finals, 6-4, 4-6, 6-1.

Perkins Majors Are Winners On Sunday

The Perkins Majors defeated the Perkins Red Birds, 10 to 5, in a seven inning game played last Sunday. The Majors got eight of their runs in the first inning of the game.

Next week the Majors will play Bark River.

Batteries for last Sunday's game: Majors, Peterson and Lancour; Red Birds: Ward, MacNamara and LaBresh.

DEMS CUTTING COSTS BY 25%

Make Explanation Concerning Salaries of State Officials

Reduction of more than 25 per cent in the cost of operating state institutions and departments is indicated in the figures of John K. Stack Jr., auditor general, for the first half month of Democratic control of the state budget, according to a recent news story in the Detroit Times.

The state operated under the budget made by the administration of former Governor Brucker until July 1, when the new fiscal year began. The first figures for which the present administration is wholly responsible are for the first half of July.

July 15 expenditures, which include state departmental and institutional pay rolls for the first half of the month, totaled $458,836 against $775,099 for the same date last year.

Most of the Democrat officials have accepted the full amount of the salaries fixed for their offices by the constitution on the statutes, because the larger groups of remaining Republican officials, members of the Public Utilities Commission and of the Supreme Court, collect their full salaries.

Murray D. Van Wagoner, state highway commissioner, who assumed office July 1, has returned to the auditor general 10 per cent of his salary, however.

State officers pointed out today that reports that their Republican predecessors had accepted only $4,000 in most of the elective offices for which $5,000 salaries are provided, are not correct.

A few of the departments show slightly higher operating expenses because of increased work. This is true of several divisions of the office of Frank D. Fitzgerald, secretary of state, the only Republican elective officer, and in the office of Patrick H. O'Brien, attorney general.

Dr. Paul F. Voelker, superintendent of public instruction, who assumed office July 1, has reduced the salary expense of his department by $35,660, or more than one-third. Although he succeeded the most economical of the Republican officials, Stack has reduced the number of employees in the auditor general's department from 209 to 174, with eight more scheduled to go August.

:-: Newberry News :-:

BLIND BOGEY

Word reached Harold Newsome, professional at the Newberry country club that the St. Ignace tournament players would be unable to come to Newberry for the expected Sunday play. A blind bogey was arranged for local players, 15 entering. Bob Meyers made low score, shooting a 39. 36 is par for this course. The bogey prize was split three ways, going to Walter Johnson Dr. Spinks and Oscar Swanson.

Next Sunday the Hiawatha golfers are expected to play in tornament on the Newberry course, Messrs. Chamberlain and Newsome making a trip to the club on Saturday to arrange for the contest. Newberry will play a return match on August 27, according to present plans.

SCOUTS CAMPED

Eleven local scouts under the direction of Scout Master Verne Underwood and Committeeman Oscar Swanson spent Saturday night at the Taquamenon Falls. The party went down with Joe Beach on the Betty B. on Saturday morning, taking a row boat with them in which to explore the river. They returned Sunday evening, reporting a fine time. Those on the trip were Bud and Bill Thackham, Fern Barrett, Sterling Stewart, Arthur Fahler, Mason Counter, Lloyd Pardee, Charles Ducat, Oscar Sundstrum, Ralph Bickerton and Jack Minard. A large number could have been taken on this trip as Douglas Surrell had offered to look after the transportation, but only 11 turning up the trip was made anyway.

NEWBERRY LOCALS

Thomas Bleakley of Pittsburgh is a guest at the home of his nieces, the Misses Anna and Elizabeth Hall.

All state men connected with the CCC camps in this district will be given protection against small pox and typhoid, the shots being given on Monday and Tuesday afternoons after 4:00 o'clock.

Mrs. Robert Meyers and new daughter, Miss Joanne Mary, were able to leave the hospital and return to their home on Monday morning.

Mr. and Mrs. Ralph Harper and three children of Galesburg, Mich., are spending a vacation period at the home of his parents Mr. and Mrs. James Harper.

Charles Paahnenen was discharged from the Perry-Spinks hospital on Monday.

Two baby girls arrived at the Perry-Spinks hospital on Saturday evening. One was born to Mr. and Mrs. Charles Nantel and one to Mr. and Mrs. Harry Strum of Curtis.

A large group of friends met at the home of Mrs. John Brown on Sunday. E. E. Van Cleaf drove up from Ann Arbor bringing with him the two Hyde sisters and Miss Howard. Miss Ina Otis and Carlton Brown from Detroit came up with them. Mr. and Mrs. W. Walsh drove over from Gladstone and Mr. and Mrs. M. Magnusson and children arrived from Washington Island. The Ann Arbor and Detroit group returned downstate during the evening, John Brown returning with them.

MCGREGOR FUNERAL

Funeral services for Verne McGregor were held in the Methodist Episcopal church on Sunday afternoon, Rev. J. J. Pacey delivering a brief sermon, and burial took place in Forest Home cemetery.

Among those from out of town who attended were the bereaved wife and children. Mrs. McGregor lives in Madison, Wis., the son Floyd in Portland, Maine and the daughter, Beatrice from Detroit. Mrs. Leona White, sister of the deceased, and daughter Myrlene White of Iron Mountain, Jacob Edwards of Flint, Mr. and Mrs. Melvin Edwards of Detroit, Mr. Douglad McGregor and Mrs. Parker, Mr. and Mrs. Everett Wood and Mr. and Mrs. Earl Edwards, all from Manistique and Mr. and Mrs. Roy McGregor, Gaylord were also here. All of the out-of-town relatives will have returned to their homes by Tuesday afternoon.

Nowadays, more than two-thirds of all astronomical observations are made with the aid of photography.

LAKE FISHING CODE RECEIVED

Fishermen's Cooperative Action Would Benefit 350,000

A synopsis of the proposed code of fair competition under the National Industrial Recovery Act for the fishing industry on the Great Lakes, all inland lakes and rivers of the United States, has been received here from the Fishermen's Cooperative association.

The fish code follows:

(1) In presenting this proposed code to the government, it is intended to secure aid, assistance and protection, under the federal industrial recovery act, for some 38,000 commercial fishermen and some 300,000 employes; to increase the consumption of fish as a food; to establish newer and better markets; to improve transportation facilities; to give protection to the commercial fishermen in the sale and transportation of his products; and, in general, to raise to a higher level the entire fishing industry.

(2) No one shall be allowed to enter into the business of commercial fishing without first procuring a license. No license shall be issued to any one not engaged in the fishing industry prior to July 1, 1933, unless, in the opinion of the federal trade commission or other public body, there shall exist a shortage of production at the time of application for such license.

The fishermen, by their association and representatives, shall elect an executive committee with powers to:

(a) Abolish conflicting laws of the several states, and to make uniform rules and regulations for commercial fishing in the Great Lakes, inland lakes and rivers.

(b) To maintain hatcheries; to replenish fish either exhausted or threatened with exhaustion.

(c) To publish information to fishermen of fishing conditions, marketing conditions, methods of distribution, and shipping.

(3) There shall be a resident price control committee appointed by the Fishermen's Co-operative association or by its directors, to study the market, fishing and shipping conditions, who shall equitably decide upon prices to be paid in the Chicago, New York and other markets for fish by the wholesaler or distributor; and also the price or prices to be paid by the public. Prices are not to be determined arbitrarily, but decisions are to be based upon supply, demand, and other conditions.

(4) Payments shall be made daily on the date of arrival and receipt of the shipment.

(5) A violation of this rule by the consignee or wholesaler shall render said consignee or wholesaler subject to disciplinary measures. There shall be no discounts, rebates, or any other secret or unfair practices or allowances.

(6) It shall not be permissable for any person to operate more than one establishment as wholesaler or distributor of fish; and no individual shall be interested, directly or indirectly, in more than one firm, corporation or business in any one city in marketing, distribution or other activity in the concern of the activity in the concern of the fishing industry.

(7) No person, firm or corporation shall engage in the business of wholesaler, distributor or commission merchant or otherwise, in or concerning the marketing, sale and distribution of fish, without the consent of the Fisherman's Co-operative association. No person may, directly or indirectly, engage as wholesaler, distributor or marketer of fish unless he is of good moral character.

(8) Each individual, firm, partnership or corporation, engaged in marketing or as wholesaler or distributor of fish, shall post with the Fishermen's Co-operative association a bond in the sum of $10,000 or any other sum as may be determined by the said association from time to time, to guarantee to the shipper fisherman any money due or which may become due for shipments.

(9) The executive committee shall gather and distribute data and statistical information of interest to its membership at large, and shall have the power to recommend and propose, of its own iniative, changes and additions to this code as shall be for the good of the industry, and to conform to the action of the president in administering the provisions of the national industrial recovery act.

(10) Radio broadcasting or publishing false claims giving advantages to fishermen shall be prohibited.

(11) No provisions of this code shall be interpreted in such a manner as to promote monopolies; enterprises or discriminate against small enterprises, and any violation by any operator or owner in the fishing industry of any of the provisions of this code, or any rule made in conformity therewith, shall be deemed an unfair method of competition.

TELLS OF ARMY WORK AT CAMP

Major H. J. Schweitzer of Waucedah Speaks at Rote Meet

Major H. J. Schweitzer, in charge of the Civilian Conservation camp at Waucedah, told members of the Escanaba Rotary club yesterday some of the things "the United States army is assigned to do, in addition to fighting," when he, in a most interesting address, told of the plan for operating the conservation camps throughout the nation.

In addition to the actual work being accomplished on federal and state lands Major Schweizer asserted the more lasting and important result of the effort will be shown in future years in the characters of the young men who are enrolled in the work. He said that a serious and, he believes, a successful effort is being made by the government through these camps to bring a wholesome influence into the lives of many young men selected from crowded tenament homes of the cities of the land, who were without jobs and approaching the borderline of gangdom. Major Schweitzer told of the improved morale that is already in evidence after an effort of less than two months.

He told of the work being accomplished in the woods by these men in building fire breaks, fire roads and cutting out dangerous fire hazards in the timber slash of wide areas. He described the work assigned the boys as "brutally hard," but said that the majority of the recruits are making good at the tasks assigned them.

Major Schweitzer's address was highly interesting from start to finish and the pleasure of his audience was proven in the hearty applause accorded him at the conclusion.

Sawmill At Wells Closes For Repairs

As previously announced, the sawmill of the I. Stephenson company was shut down for the usual annual repairs yesterday, and will reopen within three or four weeks. The plant has been running continuously during the period that many other plants in the district have been idle.

It is expected that when operations are resumed, the plant will be operating under the code of the National Industrial Recovery Act, which are expected to prescribe shorter hours.

The planing mill went back to a single shift yesterday, and this schedule will remain until there is an improvement in business.

NICK BRITZ PASSES AWAY

Well Known Jobber and Farmer of Turin Called by Death

Nicholas Britz, 66, of Turin, well known Delta county pioneer, died at the Laing hospital here at 3:45 o'clock Sunday afternoon after an illness of three months' duration.

Mr. Britz was born in Saxeford, near Port Washington, Wis., February 28, 1867. He came to Lathrop in the fall of 1881 and worked as a farm hand for A. Lathrop, for whom the village was named. During the following winter he worked for Mr. Hughitt, who was doing an extensive logging business at that time.

In 1885, Mr. Britz entered the employ of Oscar Grey, a jobber, residing in Oshkosh, Wis., and having large timber land interests. A year later he became land cruiser and superintendent, having charge of eleven lumber camps operated by the Grey concern. He remained in Mr. Grey's employ for six years until the latter sold out his interests in the county.

In 1894, Mr. Britz bought some timber land and went into the logging business on his own. He was engaged in lumbering and farming until just recently. He located on a farm at Turin 14 years ago.

Mr. Britz held several township offices and was always interested in public affairs. Years ago, he was a member of the Escanaba Business Men's association.

His widow, to whom he was married on July 3, 1907, is the only survivor.

The body was taken to the Allo Funeral Home to be prepared for burial. No definite arrangements, excepting that the Escanaba Lodge No. 354, B. P. O. E., of which he was a member for many years, will have charge of the funeral.

I feel closer to my cigarette each time I smoke

I really can't help it. After all, one *does* develop a personal regard for a thing that comes in such intimate contact with one's lips. And since I am a woman, I *do* appreciate the fact that my Lucky Strike never offends my fastidious sense of daintiness. Men smile at my feminine reasoning. To *them* the character of Luckies' fine tobaccos seems more important. But my woman's intuition tells me that the purity of "Toasting" is never to be forgotten. And so, the more I smoke, the closer I feel to my cigarette.
